Werner & Mertz  
Professional

# Pioneer for 50 years:

Werner & Mertz Professional – A company with a vision

For more than 150 years, the family-owned Werner & Mertz has been successful in the market as an umbrella brand and European forerunner in innovations for the cleaning industry. In 1971 Tana-Chemie was set up with offerings tailored to professional cleaning services. Our established brands Green

Care Professional and Tana Professional, supported by highly qualified and motivated employees, stand for the entire company's unwavering commitment to sustainability. We are driven by our desire to make a sustainable lifestyle attainable for the majority even beyond the boundaries of our brand.

**1971**

Founding of  
Tana-Chemie GmbH

**1989**

Launch of the  
Green Care brand

**2003**

EMAS-certified production  
site in Mainz, Germany. Followed  
by Hallein, Austria in 2005.

**2005**

First EU Ecolabel  
certification

# Better across the industry:

Wherever people come together,  
our cleaning products are put to use.

Together we are on the way to becoming the European market and innovation leader in professional specialized care. In our sector we will succeed with exemplary ecological products and concepts designed and developed for the circular economy. Based on our many years of experience, we provide our customers with comprehensive, customized and integrally sustainable hygiene solutions that contribute to their success.

## Some of our major sectors:

- Public institutions
- Offices and commercial space
- Healthcare facilities
- Hotels, cafés and restaurants
- Industry
- Transportation and traffic
- Sanitary facilities and swimming pools
- Recreational facilities

**2013**  
First Cradle-to-Cradle® Gold certification for a complete range of cleaning products

**2014**  
First bottle of 100% recycle

**2018**  
Release of the Green Care Performance Calculator

**2022**  
Our Company wins EcoVadis Platinum Medal for the second time

# The one-way street must be history ...

## The lie of climate neutrality

**We cannot buy a way out of the climate crisis with  
carbon offsets.**

Join us in creating honest  
climate protection.  
Read about the right way to go at:  
[www.circular-success.com](http://www.circular-success.com)

## Cradle to Grave: The materials flow with no consideration given to long-term resource conservation from the source to the landfill

No consideration for long-term conservation of resources  
"One-way design": Take – Make – Waste

### Are we digging our own grave?

Rainforests on fire, plastic waste on land and sea, climate change and species extinction are some of the world's current problems. The scientific framework of planetary boundaries describes nine environmental systems that interact with each other and affect the stability of Earth. Six of the nine boundaries have already been crossed. How did this turning point come about? To answer that question, we have to look at the currently predominant economic system—the one-way street—that is leading us into a dead end.

### Take – Make – Waste

The material flow design still used today for most products is referred to as "cradle to grave". Its focus is on the product's usage phase. "Cradle to Grave" ignores the origin and the ultimate fate of a product. The environmental impact during production is neglected too. Nevertheless, many companies have found a dubious way out of the dead end in the climate-damaging one-way street. Carbon offsetting gives them the chance to disguise the real environmental impact of their products.

### All signs point to change

At Green Care Professional we are convinced that first and foremost, companies have to reduce their CO<sub>2</sub> emissions and communicate that clearly and comprehensibly. Buying a way out through carbon offsetting alone won't change a thing. The time has come to bring about the ecological transformation at an industrial level.

How can  
we manage  
the transformation  
without giving up too much?

**Simply turn the page.**

# ... the future belongs to the circular economy

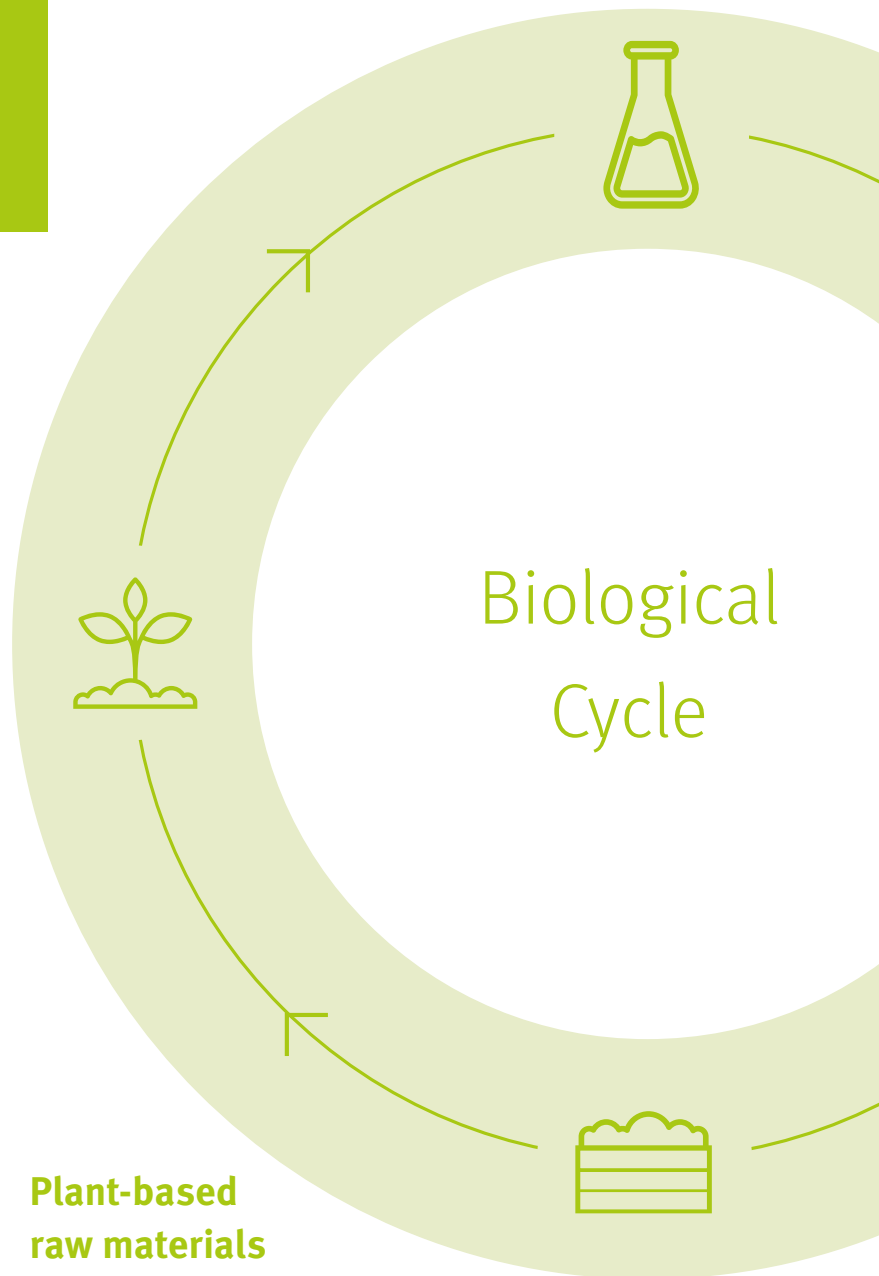

Sustainability has taken on a much bigger role. The one-dimensional Cradle to Grave principle, however, is still applied and supplemented merely by a reduction in the use of raw materials and resources. The issue: efficiency is improved, but no effectiveness is achieved.

## No room for compromise in a true circular economy

In the circular economy according to the Cradle to Cradle® principle, how it is practised holistically with our Green Care Professional brand, the raw materials can be reused and pollutants are thus prevented from getting into the environment. The origin and fate of ingredients are kept in closed cycles, i.e., cleaning chemicals in the biological cycle and packaging in the technical cycle.

### Formulas

We use plant-based surfactants in our sustainable formulas. They contain no critical ingredients or allergens.

### Plant-based raw materials

We use renewable plant-based raw materials.

### Compost

Our cleaning chemicals are biologically degradable.

## Packaging

We see waste as a resource:  
Almost all of our packaging is made  
of recyclable and recycled waste.

# Technical Cycle

## Recycling

Through disposal via the Yellow Bag,  
empty packaging is once  
again returned to the closed  
loop of recyclable materials.

## Technical raw materials (recyclate)

Recyclate is generated by the sorting  
and processing of plastic waste  
and then used to make new,  
high-quality plastic packaging.

# Our Products

## Our development guidelines follow Nature's example

Our development guidelines, which form the basis for our entire Green Care portfolio, follow the Cradle to Cradle® Principle. Ever since our brand was established, we have worked at optimizing our technical and biological recycling in order to make our formulas and packaging even more sustainable.

### Green Care Professional – symbiosis of biology and technology:

- **Strong cleaning power**
- **Excellent price/performance ratio**
- **Safe for humans and Nature**

## Formulas

In development and production, we consistently use renewable energy technology and raw materials. We continuously reduce by-products, pollutants and residues in our formulas. We also pay attention to the biological degradability of materials and exclude raw materials with negative environmental impact in compliance with EU Ecolabel requirements.

**As our formulas contain neither hazardous nor prohibited materials, they are harmless for humans and the environment.**

*Conventional product formulas*

Crude oil-based surfactants  
Dyes  
Fragrances  
Water

*Green Care Professional formulas*

Plant-based surfactants (tropical crops)  
Plant-based surfactants (European crops)  
Food dyes  
Water from our own well

## | Packaging

In order to do without virgin plastic made from crude oil and to conserve our fossil resources, we rely on recyclate from the Yellow Bag. We refrain from using PS (polystyrene) and PVC for our packaging components.

**The recyclate share in our bottles is 100 % and our bottles are completely recyclable. After their disposal, they can be returned safely to the material cycle.**

HDPE bottles

PET bottles

*In the long term we will use 100% recyclate from the Yellow Bag for our PET bottles. Until a complete switch is possible, we supplement the material with recyclate obtained from deposit bottles.*

Yellow Bag  
Yellow Bin

PET deposit bottle  
collection

# Our development guideline

Safe and fair for humans and the environment

## Material health & ecology

With the Type 1 Ecolabel, Green Care Professional can verify that the exclusion of toxic ingredients makes its formulations harmless to human life and the environment. Only harmless fragrances and dyes are used in accordance with Ecolabel criteria. Animal-origin ingredients, PFAS and synthetic polymers to avoid microplastic are excluded from Green Care Professional formulations. The packaging does without phosphates and PVC. Our use of renewable energies, in-house production of electricity from wind and solar power and sustainable production in accordance with ISO 14001 and 50001 at our EMAS-certified European sites with in-house water treatment facilities distinguish us as sustainability pioneers.

## Circularity

### Formulation

**Origin:** We use renewable plant-based raw materials instead of fossil sources and regenerative, degradable solvents with low limits. We promote the use of surfactants of European origin to support native species diversity.

**Remaining:** The goal is the reduction of by-products, contamination and residue, plus rapid, high biological degradability of organic materials.

### Packaging

**Origin:** Avoidance of fossil resources through the use of Post-Consumer Recyclate from household waste collections like the Yellow Bag in bottles and caps.

**Remaining:** Design for Recycling of packaging to allow mechanical recycling without loss of quality (upcycling).

## Social fairness

Our suppliers' code of conduct for the entire value chain ensures integrity, honesty, respect for human dignity and responsible handling of our resources. Production takes place in Germany and Austria. We assume responsibility for our customers through the full declaration of all our ingredients and our own customer training in the safe and proper handling of cleaning agents.

## Economy

Sustainable procurement with Green Care Professional is economical, thanks to low cost per use. Our products are less expensive than conventional cleaning agents although they are sustainable. The recyclable packaging saves money on disposal. Intelligent, efficient dosing technology and ultra-concentrated formulations increase our customers' economic efficiency. The broad range of CLP-free products also reduces personnel training expenses.

## Performance

The combination of top cleaning performance and sustainability does not require doing without anything found in conventional cleaning agents. Within the scope of Ecolabel certification, performance has been verified by marketing testing or performance checks by external testing institutions. Our intelligent dosing systems strengthen the efficient use of our cleaning products.

# Outstanding Work for the Environment

## Certificates: Proof of our progress

Our Green Care Professional portfolio offers a broad assortment of certified products. For all areas of application we have products that have earned at least one certification. This fact distinguishes us from other manufacturers and makes clear that genuine sustainability has to be practiced in the entire company if it is to be credible. We are a pioneer in the industry with the most Cradle to Cradle® certified products and are proud that we have proof of the recyclability of our formulas and our packaging.

At our production sites in Mainz and Hallein, we implement the highest quality and environmental standards and see them reflected in our certifications.

**200+**  
product  
certifications

**Green Care Professional**

**Surfactants produced from European sources**

**Post-Consumer Recyclate from the Yellow Bag in bottles and caps**

**In-house water treatment and production of electricity using wind and solar power**

You'll find more information about the individual sustainability labels on our website [www.green-care-professional.com](http://www.green-care-professional.com) in the "About the Brand" drop-down menu under "Certifications".

# Which system satisfies your requirements?

## Ready4U

### Speed

Our spray bottles for safe and fast application without measuring.

## Concentrate + Dosing

### Price / performance ratio

High-performance concentrate and simple dosing options.

## Switch

### Reduce + Reuse + Recycle

Ultra-concentrated formulations in bottle with dosing cap and refill pouch.

## Kliks

### Safety

Our compact Kliks cleaning system is intuitive and safe.

## QUICK & EASY

### Mobility

Precise dosing, suitable for mobile use, clever packaging design.

# Commitment leads to Change

## Acting out of conviction

„Together we are strong“ – if we pursue our goals as one, we achieve more. That's why we work in many instances with initiatives, companies and cooperation partners who pursue the same goals as ours.

We all want to protect our environment, promote sustainable production and advance the circular economy in society.

---

### Our Success: The Recyclat Initiative

Microplastic in the oceans is a devastating consequence of the way we handle the flood of waste. The United Nations Environment Programme, the World Economic Forum and international bodies like the Ellen MacArthur Foundation see the solution to the problem in a closed circular economy for plastic. We do too! The Recyclat Initiative is an important step toward this goal.

#### Our Success: World record

More than 794 million PET bottles made of recyclat have been put into circulation by the Werner & Mertz Group. (As of December 2023)

[wir-fuer-recyclat.de](https://www.wir-fuer-recyclat.de)

## Green Key: The Key to Sustainable Accommodations

Hotels, youth hostels, campgrounds and all other types of accommodation require an enormous amount of electricity, water and cleaning products to handle the high number of guests. A minor change in the direction to sustainability can have many positive effects.

Green Key International certifies accommodations that use sustainable business practices. We provide Green Key with our practical Performance Calculator so organization can convince even more companies to think and act sustainably.

## Working Together for Sustainability: Our customer success stories

While others only talk about sustainability, we have consistently put it into practice with our customers. With our ecological and recyclable cleaning solu-

tions, we have already eliminated several tons of plastic, crude oil and CO<sub>2</sub> emissions. You too can become a sustainability role model!

### Ghent: shines in heroic splendor!

In recent years Ghent, the second largest city in Flanders, has worked steadily to make its municipal cleaning services sustainable and that includes the use of integrally sustainable cleaning products.

Ghent purchases products that satisfy the EU Ecolabel criteria and was the first city to introduce “Cradle to Cradle®” certified products for the cleaning of its buildings and facilities.

### Mont-Saint-Michel: Preserve the UNESCO World Heritage Site!

The two Groupe Gaulois hotels clean with Green Care Professional, making them sustainability role models. It sees the use of our eco-certified cleaning products as added value, which can be effectively communicated to the target groups.

*You can find more success stories on our Green Care Professional website.*

**Measure your sustainability progress on [get.wmprof.com](https://get.wmprof.com)**

# SIRH/+ BOCUSE D'OR

## Bocuse d'Or: Culinary Arts meets Social Commitment

Green Care Professional is in the chefs' corner during culinary competitions, working to ensure flawless kitchen hygiene.

Green Care Professional is not just a partner at the Bocuse d'Or grand finale but also the presenter of the Social Commitment Award bestowed at the event. An international jury honors one of the competing teams of chefs for its social engagement and thereby supports outstanding projects in food aid or sustainable development.

## Our Award-winning Engagement

### German Environmental Award

*„Bold decisions today will trigger positive interactions for tomorrow.“*

With these words, German Federal President Frank-Walter Steinmeier presented the German Environmental Award 2019 to our CEO Reinhard Schneider. The jury was particularly impressed by Schneider's commitment to the Recyclate Initiative and his consistent focus on the topic of sustainable management in all parts of the company.

# Extensive Service

Based on unique expertise

Our passion for cleanliness and our decades of experience in the cleaning industry make us the perfect contact for all your issues. With us you

benefit from efficient and innovative products and a complete service portfolio too. Here is an overview of our main services:

## Our Service Portfolio: For your satisfaction and efficiency

### 1 Top advice

Our qualified advisors closely examine your cleaning services and help you to optimize them.

- Object files contain detailed information about your object, processes and the products you use.
- Usage technicians advise you on site.

### 2 Customized concepts

When you need recommendations, cleaning or outbreak plans, we use our expertise to optimize your offers and solve your application problems.

# 3

## Competitive Advantage

Sustainability is becoming more important for society and businesses. Only those companies that can credibly convey their sustainability efforts will realize a competitive advantage. We'll help you to do just that!

- Performance Calculator to figure out potential improvement to your ecological footprint
- Certificate that proves your resource conservation with our products

# 4

## Special Know-how

We'll be happy to bring you and / or your employees up to date in the cleaning industry.

- Training programs in our Green Care Academy.  
Read about them on the next page.
- Current information from our newsletter  
Tana informs

# 5

## Technical Support

Do you have problems or questions about handling our products?

- We'll provide dosing systems at no cost via a leasing agreement
- Emergency service if dosing system fails or malfunctions

## Service info.

We would be pleased to give you information about our services or concrete details on our separate services: [info@tana.de](mailto:info@tana.de)

# 6

## Hygiene Assistance

We offer extensive services to set up and maintain first-class hygiene standards.

- On-site consulting by trained disinfection specialists
- Examination and documentation in hygiene audits
- Microbiological testing

# Optimize Ecological Performance

Measure your sustainability progress with the Performance Calculator

Companies are paying more attention to their ecological footprint these days. Our Performance Calculator shows you how you can optimize your footprint with Green Care Professional.

Your added value with Green Care Professional.

**Less carbon dioxide**

**Less plastic**

**Less crude oil**

## Benefits for every area of application

Our Performance Calculator reports the potential reduction in your environmental impact in every application area. Use the results in bids, offers and as credible, positive PR for sustainability reports.

## Our Sustainability Promise:

“We confirm that the savings in crude oil and carbon emissions determined by the Performance Calculator were correctly calculated for both the packaging components and the detergent formulations of all Green Care Professional products.”

*Intertechnica Cert GmbH*

Test our free Performance Calculator!  
[www.get.wmprof.com](http://www.get.wmprof.com)

# Professional Cleaning

## First the facts

### pH Value

The pH value, which specifies the degree of aggressiveness of acids or alkalis, is an important indicator of the material compatibility of the cleaning agent and its cleaning properties.

pH value < 7 (acidic): inorganic or mineral soiling, e.g., limestone or pigments

pH value = 7 (neutral): all-purpose, neutral cleaner with help from surfactants or emulsifiers

pH value > 7 (alkaline): organic soiling, e.g., grease or protein

### Color System

Our color coding system shows the proper usage area for cleaning agents and adheres to requirements for professional cleaning:

- Sanitary area (e.g., SANET)
- Surfaces (e.g., TANET & TANEX)
- Floor cleaning (e.g., TAWIP)

### Sinner's Circle

According to Sinner, a wash and cleaning process involves four interdependent cleaning factors whose respective sizes can be altered.

## Perfectly prepared for everyday cleaning jobs.

In the Green Care Academy we offer you support with product training. In three different ways we ensure that your employees work safely and efficiently: live training, web seminars and eLearning.

Learn more at: [www.green-care-academy.com](http://www.green-care-academy.com)

# Building Care

## Daily Cleaning and Care

### Maintenance Cleaners

#### TANET uni SWITCH

##### Ultra-concentrated floor- and surface cleaner

**Exact dosing | Safe application | Reduce, Reuse, Recycle**

Ultra-concentrated cleaner on alcohol basis for floor and surfaces. Good wetting properties ensure easy and thorough removal of dirt and grease from porous stone floors and even from hydrophobic surfaces such as PUR, leaving no streaks or stripes. Suitable for all water-resistant floors such as stone, rubber, linoleum, PVC, PUR etc. Ultra-concentrated and EU Ecolabel certified formulation.

**716155** – 1 | BOTTLE\* | **716230** – 1 | POUCH\*\*

AT/020/012

#### TANET SR 15

##### High performance floor- and surface cleaner

**Perfect cleaning results | Good wetting properties | Cost-efficient**

High-performance floor and surface cleaner based on alcohol. Ideal maintenance cleaner with outstanding environmental characteristics for the effective cleaning of all water-resistant floorings, e.g., stone, rubber, linoleum, PVC and all washable, smooth and shiny surfaces of plastic, lacquer, glass, ceramics, metal, etc.

**712479** – 1 | BOTTLE | **712480** – 5 | CANISTER

DE/020/385

#### TANET SR 15 F

##### High performance floor- and surface cleaner

**Contains no fragrance or dye | Perfect cleaning results | Good wetting properties**

High-performance floor and surface cleaner based on alcohol, without dyes or fragrances. Ideal maintenance cleaner with outstanding environmental characteristics for the effective cleaning of all water-resistant floorings, e.g., stone, rubber, linoleum, PVC and all washable, smooth and shiny surfaces of plastic, lacquer, glass, ceramics, metal, etc.

**712605** – 1 | BOTTLE

DE/020/385

## TANET karacho

### Surfactant-free all purpose cleaner

**All-purpose use | User safety | Cost-efficient**

Surfactant-free all-purpose cleaner for manual and mechanical cleaning of all water-resistant surfaces and floors, including stone, especially microporous stone flooring. Also suitable for cleaning textiles, walls and ceilings.

DE/020/385

**716627** – 750 ml SPRAY BOTTLE | **712475** – 1 l BOTTLE | **712476** – 5 l CANISTER

## TANET neutral

### Neutral cleaner

**Top cleaning performance | Degreasing power | Material and skin friendly**

Neutral cleaner with optimum cleaning power to remove oily and greasy soiling. Works at economically low concentrations; very good material and skin compatibility. Can be used as hand dishwashing detergent. Pleasant scent.

DE/020/385

**712555** – 1 l BOTTLE | **712506** – 5 l CANISTER

## TANET orange

### Floor and surface cleaner

**All-purpose use | Increased user safety | Pleasant orange scent**

Ecological, general use floor and surface cleaner. Leaves behind a lingering, pleasant scent of oranges. Very good dirt-holding capacity; with high material compatibility.

DE/020/385

**712477** – 1 l BOTTLE | **712478** – 5 l CANISTER

# Building Care

## Daily Cleaning and Care

### Maintenance Cleaners

#### TANET day KLIKS

##### High-concentrated floor and surface cleaner

**Economical | Good wetting properties | Safe use**

Innovative formula with exclusive surfactant combination with exceptional wetting, dispersing and cleaning properties. Perfect cleaning results for floors, surfaces and glass. Leaves behind the refreshing scent of grapefruit. Kliks is a closed dosing system with sustainable packaging and high-performance products. Kliks stands for controlled dosing and efficiency, reduced space requirements during use and maximum user safety. Plastic packaging too is significantly reduced (up to 90%).

**715259** – 2 l POUCH

DE/020/385

#### TANET SR 13

##### Alcohol cleaner

**High performing | Streak-free | Pleasant scent**

Alcohol cleaner with a uniquely fresh scent. High cleaning performance combined with gentle treatment of materials. Delivers perfect shine retention without streaks and residue. Dries quickly.

**716089** – 1 l BOTTLE | **716090** – 5 l CANISTER

DE/020/385

## Maintenance Cleaners in Quick & Easy system, Ready-to-use Cleaners

### TANET interior QUICK&EASY

#### Universal surface cleaner

##### High performance | Streak-free | Versatile

Part of the Quick & Easy portable dosing system, the highly concentrated TANEX performa Quick & Easy combines outstanding performance with minimum effort and low usage costs. With no CLP-classified hazardous ingredients, the product ensures maximum user safety. Stable, compact foam. Dries quickly without streaks or smears. can be used to clean windows. High material compatibility. Pleasant scent.

**713658** – 325 ml CARTRIDGE

AT/020/012

### TANET interior F QUICK&EASY

#### Universal surface cleaner

##### No fragrance or dye | High performance | Streak-free

The perfume and dye-free TANET interior F offers top user safety and outstanding performance. Part of the Quick & Easy portable dosing system, TANET interior F Quick & Easy stands for efficient use at low operating costs. Contains no CLP-classified hazardous substances. Stable, compact foam. Dries quickly without leaving behind streaks and smears. Can be used for window cleaning too. High material compatibility.

**714481** – 325 ml CARTRIDGE

AT/020/012

### TANET multiclean

#### Ready-to-use all purpose cleaner

##### Quick-drying | Long-lasting scent | Anti-static

TANET multiclean guarantees cleaning that's gentle to materials. It leaves no streaks or residue and maintains the cleaned surface's shine. Intense and long-lasting room-freshening scent

**715779** – 750 ml SPRAY BOTTLE

DE/020/384

## Biotechnological Cleaners

### BIOBACT clean

#### Biotechnological all-purpose cleaner

**Cleaning efficiency | Long-lasting cleanliness | Material friendly**

Biotechnological cleaner for all waterproof surfaces. Long-lasting elimination of offensive odors; leaves behind a pleasant scent. Regular use prevents new formation of organic contaminants. BIOBACT clean helps to reduce offensive smells in industrial operations, especially in areas where watery solutions are disposed of via the wastewater system.

**714707** – 1 l BOTTLE

DE/020/385

### BIOBACT scent

#### Biotechnological odour eliminator

**Effective odor control | Long-lasting cleanliness | Material friendly**

Biotechnological odor eliminator for all waterproof surfaces and fabrics. Long-lasting elimination of offensive odors; leaves behind a pleasant scent. Varied uses in sanitary facilities, drains, trash containers and the like. No hazard labels required.

**714709** – 500 ml SPRAY BOTTLE | **714708** – 1 l BOTTLE

# Building Care

## Daily Cleaning and Care

### Care & Maintenance

#### TAWIP vio SWITCH

##### Ultra concentrated floor cleaner and -care

**Exact dosing | Safe application | Reduce, Reuse, Recycle**

The natural coconut fat soap in the formula protects floors from leaching effects. Leaves a protective film with antistatic effect, reducing the danger of slipping in compliance with DIN 18032-2. Ideally suitable for mechanical and manual maintenance cleaning of all water-resistant floors in objects demanding highest floor care and slip resistance. Ultra-concentrated and EU Ecolabel certified formulation.

**716156** – 1 | BOTTLE\* | **716233** – 1 | POUCH\*\*

AT/020/012

#### TAWIP vioclean

##### Floor cleaner & care

**Natural soap basis | High slip resistance | Cost-efficient**

Soap-based floor cleaner and care product with exceptional environmental properties. For use with automatic floor scrubbers or for manual application. With natural coconut oil soap to protect floors from leaching effects. Tested slip resistance in compliance with DIN 18032-2. Effective even in low concentrations.

**712484** – 1 | BOTTLE | **712485** – 5 | CANISTER

DE/020/385

#### TAWIP vioclean F

##### Floor cleaner and -care

**Increased user safety | High slip-resistance | Perfume & dye free**

Soap-based floor clean and care product, contains no dyes or fragrances, with exceptional environmental characteristics. Suitable for use with automatic floor scrubbers. Natural coconut oil soap protects floors from leaching effects. Leaves a silky shiny protective film with anti-static effect and tested slip resistance in compliance with DIN 18032-2. Effective even at low concentrations. Made mostly of renewable resources, TAWIP vioclean F contributes to the well-being of future generations.

**712606** – 1 | BOTTLE

DE/020/385

## Emulsions

### LONGLIFE complete

#### Ultra-performance floor polish

**Completely economical | Completely safe | Completely flexible**

High-performance dispersion system with outstanding features. Extremely resistant and durable, thanks to specially developed combination of high-performance polymers. Highly resistant to alcohol and disinfectants. Environmentally compatible formula awarded the Austrian environmental seal. User-friendly; works best in system with LINAX complete. Tested slip resistance in conformance with DIN 18032-2.

**712513** – 5 l CANISTER

### LONGLIFE matt

#### High-performance matt floor polish

**Resistant | Matte appearance | Increased safety**

Provides alcohol and surface disinfectant resistance with a matte look for ideal floor care in healthcare facilities. Resilient, highly elastic protective film that adheres well to all types of flooring, including damp linoleum. Slip resistance tested against DIN 18032-2 criteria. Certified, with Austrian environmental seal.

**714289** – 5 l CANISTER

### LONGLIFE polish

#### High-gloss floor polish

**All-purpose | Safe use | Cost-efficient**

Universal use of floor care dispersion without eco-toxic ingredients such as metal salt (zinc), TBEP, fluorosurfactants and fragrances. Adheres well to surfaces, polishes and restores protective film. LONGLIFE polish is a safe and durable floor polish. Tested slip resistance as per DIN 18032-2. Works best in the system with LINAX stripper. Certified, with Austrian environmental seal.

**712514** – 5 l CANISTER

# Building Care

## Deep Cleaning and Care

### Emulsions

#### LONGLIFE hospital

##### Disinfectant – resistant emulsion polish

##### Disinfectant-resistant | Long-lasting | Easy Application

Dispersion with good resistance to alcohol-free disinfectants. Can be applied easily and quickly. Good leveling and low dirt absorption. Suitable for use on all waterproof floor coverings. Ideal for hospitals, healthcare facilities or nursing homes and wherever APESIN is used for cleaning.

716038 – 5 l CANISTER

#### LONGLIFE diamond

##### Long-lasting, high gloss emulsion polish

##### Good wear resistance | High gloss | Easy use

LONGLIFE diamond lays down a very glossy, smear-resistant and anti-slip protective film with excellent resistance to heel marks, tracks and soiling. Outstanding flow. High leveling capacity on absorbent flooring coverings. Especially economical; very little product is needed for one application.

716060 – 5 l CANISTER

#### LONGLIFE stone

##### Long-lasting, high-gloss emulsion polish

##### Long-lasting | High gloss | For stone flooring

Highly durable dispersion of all natural and artificial stone floors. Not suitable for use on glazed tiles, fine stoneware and high-gloss polished natural stone.

716062 – 5 l CANISTER

## Basic Cleaners

### LINAX complete

#### Ultra-performance floor stripper

**Extremely powerful | Fast-acting | No rinsing**

Removes all types of polymer films. Ideally used in the system with LONGLIFE complete. Effectively removes stubborn floor polish films, including on over-treated floors. Can also be used on alkali-sensitive floors. Saves time and resources because rinsing and neutralizing are not required. Certified, with Austrian environmental seal.

**712655 – 5 l CANISTER**

### LINAX stripper

#### Universal floor stripper

**All-purpose | Safe use | Cost-efficient**

Universal cleaner with exceptional environmental characteristics. Safe use, suitable on all alkali-sensitive floor coverings. Ideal when used in system with LONGLIFE polish; easily removes multiple layers of LONGLIFE polish polymer coatings. LINAX stripper works without eco-toxic ingredients (phosphates, EDTA, NATA, fragrances, dyes) and therefore has a low impact on indoor air quality. Certified, with Austrian environmental seal.

**712515 – 5 l CANISTER**

# Building Care

## Deep Cleaning and Care

### All-purpose and Deep Cleaners

#### TANEX allround

##### 4 in 1 power cleaner

## Detergent Booster

### SYSTEM alca

#### Alkaline liquid booster

##### Powerful | Effective stain removal | Renewable resources

SYSTEM alca can be used as a pure alkaline detergent or in the system as a washing power booster. Removes stubborn stains and offers a good bond to greasy residue. It contains an innovative system of chelating agents based on renewable resources. Excludes the use of eco-toxic ingredients such as NTA, EDTA and phosphates.

## Fabric Softener

### SOFT fresh

#### Fabric softener for last rinse

**100% European plant-based surfactants | Anti-static effect | Long-lasting scent**

To satisfy the highest sustainability standards for silk laundry, the formula for SOFT fresh contains 100% vegetable surfactants made of rapeseed and sunflower oils from plants cultivated in Europe. SOFT fresh leaves the laundry with a long-lasting fresh scent.

**715688** – 5 L CANISTER\* | **715687** – 15 L CANISTER

### SOFT nature

#### Hypoallergenic last rinse fabric softener

**Hypoallergenic | Fresh perfume | 100% European plant-based**

Fabric softener based on 100% regenerative vegetable raw materials; contains no dyes or preservatives. Leaves laundry velvety soft with a naturally fresh scent. Makes ironing fast and easy.

**713163** – 5 L CANISTER

## SOFT bloom KLIKS

### Ultra-concentrated liquid fabric softener

#### Economical | Pleasant scent

SOFT bloomKliks is based on vegetable raw materials. With its natural triple action, the fabric conditioner combines a flowery scent with fabric softness and makes ironing easier. For use in Kliks-System.

**714350** – 10 L BAG IN BOX

AT/039/003

## SOFT provence

### Fabric softener for last rinse

#### Anti-static | Fresh fragrance

SOFT provence is an excellent fabric softener with a pleasant scent. Its softening cationic surfactants leave laundry silky soft and eliminate static electricity for easy ironing. SOFT provence gives the laundry a pleasant and long-lasting scent of lavender.
