

A CIRCULAR FUTURE

„A credible eco product can come only from a company that consistently pursues sustainability in everything it does, guided by ecological awareness, economic foresight and social responsibility every single day.“

Reinhard Schneider,
CEO and owner of Werner & Mertz

Werner & Mertz
Professional

Pioneer for 50 years:

Werner & Mertz Professional – A company with a vision

For more than 150 years, the family-owned Werner & Mertz has been successful in the market as an umbrella brand and European forerunner in innovations for the cleaning industry. In 1971 Tana-Chemie was set up with offerings tailored to professional cleaning services. Our established brands Green

Care Professional and Tana Professional, supported by highly qualified and motivated employees, stand for the entire company's unwavering commitment to sustainability. We are driven by our desire to make a sustainable lifestyle attainable for the majority even beyond the boundaries of our brand.

1971
Founding of
Tana-Chemie GmbH

1989
Launch of the
Green Care brand

2003
EMAS-certified production
site in Mainz, Germany. Followed
by Hallein, Austria in 2005.

2005
First EU Ecolabel
certification

Better across the industry:

Wherever people come together,
our cleaning products are put to use.

Together we are on the way to becoming the European market and innovation leader in professional specialized care. In our sector we will succeed with exemplary ecological products and concepts designed and developed for the circular economy. Based on our many years of experience, we provide our customers with comprehensive, customized and integrally sustainable hygiene solutions that contribute to their success.

Some of our major sectors:

- Public institutions
- Offices and commercial space
- Healthcare facilities
- Hotels, cafés and restaurants
- Industry
- Transportation and traffic
- Sanitary facilities and swimming pools
- Recreational facilities

2013
First Cradle-to-Cradle® Gold certification for a complete range of cleaning products

2014
First bottle of 100% recycle

2018
Release of the Green Care Performance Calculator

2021
Our Company wins EcoVadis Platinum Medal

The one-way street is history ...

Are we digging our own grave?

Rainforests on fire, plastic waste on land and sea, climate change and species extinction are just some of the consequences we face in managing our planet's resources. How did we come to this point? To understand that, we first have to look at how the currently predominant economic system – the „one-way street” – is leading us into a dead end.

Take – Make – Waste

The material flow design still used today for most products is referred to as „cradle to grave”. Its focus is on the product's usage phase. Pollutants and waste generated before, during or after the production process are as unimportant as the amount of water and energy used for each production step. It is particularly devastating that both the origin and the fate of the product are ignored. Manufacturers continue relying on fossil resources such as crude oil as a source for raw materials. Products should be designed so that they can be recycled completely or used again in a new production process. Instead, many products are incinerated after their usage phase or end up in the environment when disposed of incorrectly.

Cradle to Grave: The materials flow with no consideration given to long-term resource conservation from the source to the landfill

No consideration for long-term conservation of resources
"One-way design": Take – Make – Waste

All signs point to change

We are standing before an imminent collapse. Public pressure, like the Fridays for Future movement, indicates a large segment of the population has concluded that we have to change the way we handle our environment's resources. The time has come for us to make ecological change at the industrial level. Initial political measures such as the „Green Deal“, the „circular economy law“ and „AVV Klima“ show that a change in thinking is absolutely necessary.

How can we change our ways without giving up too much?
Genuine eco-efficiency with the circular economy.

... the future belongs to the circular economy

Sustainability has taken on a much bigger role. The one-dimensional Cradle to Grave principle, however, is still applied and supplemented merely by a reduction in the use of raw materials and resources. Efficiency is improved, but no effectiveness is achieved.

No room for compromise in a true circular economy

In the circular economy according to the Cradle to Cradle® principle, the raw materials can be reused and pollutants are thus prevented from getting into the environment. The origin and fate of ingredients are kept in closed cycles, i.e., cleaning chemicals in the biological cycle and packaging in the technical cycle.

Formulas

We use plant-based surfactants in our sustainable formulas. They contain no critical ingredients or allergens.

Plant-based raw materials

We use renewable plant-based raw materials.

Compost

Our cleaning chemicals are biologically degradable.

Packaging

We see waste as a resource:
Almost all of our packaging is made
of recyclable and recycled waste.

Technical Cycle

Recycling

Through disposal via the European household waste collection like the Yellow Bag, empty packaging is once again returned to the closed loop of recyclable materials.

Technical raw materials (recyclate)

Recyclate is generated by the sorting and processing of plastic waste and then used to make new, high-quality plastic packaging.

Our Products

Our development guidelines follow Nature's example

Our development guidelines, which form the basis for our entire Green Care portfolio, follow the Cradle to Cradle® Principle. Ever since our brand was established, we have worked at optimizing our technical and biological recycling in order to make our formulas and packaging even more sustainable.

Green Care Professional – symbiosis of biology and technology:

- **Strong cleaning power**
- **Excellent price/performance ratio**
- **Safe for humans and Nature**

| Formulas

In development and production, we consistently use renewable energy technology and raw materials. We continuously reduce by-products, pollutants and residues in our formulas. We also pay attention to the biological degradability of materials and exclude raw materials with negative environmental impact in compliance with EU Ecolabel requirements.

As our formulas contain neither hazardous nor prohibited materials, they are harmless for humans and the environment.

Conventional product formulas

 Crude oil-based surfactants
 Dyes
Fragrances
 Water

Green Care Professional formulas

 Plant-based surfactants (tropical crops)
 Plant-based surfactants (European crops)
 Food dyes
 Water from our own well

| Packaging

In order to do without virgin plastic made from crude oil and to conserve our fossil resources, we rely on recyclate from the Yellow Bag. We refrain from using PS (polystyrene) and PVC for our packaging components.

The recyclate share in our bottles is 100% and our bottles are completely recyclable. After their disposal, they can be returned safely to the material cycle.

In the long term we will use 100% recyclate from the Yellow Bag. Until a complete switch is possible, we supplement the material with recyclate obtained from deposit bottles.

5

Ingredients

for successful sustainability

Cleaning performance and quality

We are living proof that sustainability and cleaning power are not mutually exclusive. The Green Care Professional brand stands for efficient, high performance cleaning with the highest quality requirements à la „Made in Germany“.

Safe for Humans and the Environment

Safety for human life and the environment is our highest priority. Therefore, we use only harmless material that can be returned safely to biological and technical cycles.

Circular cleaning products

The circular economy is the only reasonable model for integrally sustainable business activity in harmony with human life and the environment. Green Care Professional is a pioneer in a consistently practiced circular economy along the entire supply chain, from raw materials to our in-house environmentally friendly energy generation and innovative packaging.

Sustainable profitability

Our brand is a role model for sustainability paired with profitability. Behind Green Care Professional is a comprehensive and consistently practiced philosophy of sustainable management. Our intelligent systems and efficient formulas make possible exact and economical dosing and complete emptying of the packaging.

Extensive Service

As your strong partner, we offer you integral consulting and extensive, personalized service based on our decades of experience.

Optimize Ecological Performance

Measure your sustainability progress with the Performance Calculator

Companies are paying more attention to their ecological footprint these days. Our Performance Calculator shows you how you can optimize your footprint with Green Care Professional.

Your added value with Green Care Professional.

- Less carbon dioxide
- Less plastic
- Less crude oil

Benefits for every area of application

Our Performance Calculator reports the potential reduction in your environmental impact in every application area. Use the results in bids, offers and as credible, positive PR for sustainability reports.

You can always count on us. Test our free Performance Calculator!
www.get.wmprof.com

Our Sustainability Promise:

„We confirm that the savings in crude oil and carbon emissions determined by the Performance Calculator were correctly calculated for both the packaging components and the detergent formulations of all Green Care Professional products.“

Intertechnica Cert GmbH

Outstanding Work for the Environment

Certificates: Proof of our progress

Our Green Care Professional portfolio offers a broad assortment of certified products. For all areas of application we have products that have earned at least one certification. This fact distinguishes us from other manufacturers and makes clear that genuine sustainability has to be practiced in the entire company if it is to be credible. We are a pioneer in the industry with the most Cradle to Cradle® certified products and are proud that we have proof of the recyclability of our formulas and our packaging.

But this overview is not all. You can find more numerous certifications and awards of our brand on green-care-professional.com.

Formulas

Packaging

Production & Supply Chain

The Cradle to Cradle® Design encompasses a detailed evaluation key to assess the materials used, their recyclability, use of energy and water and the social impact of product cycles and methods of production. Green Care Professional is the first brand with an entire professional cleaning and care assortment received the highest award known as "Cradle to Cradle Certified Gold" in 2013.

The European Ecolabel is the driving force for particularly environmentally friendly formulas for cleaning products in Europe. It incorporates all national environmental seals and sets strict requirements for environmentally friendly products. Many of our cleaning products for Europe now have Ecolabel-certified formulas.

The "Nordic ecolabel" certifies products for their environmental compatibility. Green Care Professional products that bear the Nordic ecolabel comply with its strict eco-toxicological requirements. The Nordic Swan is granted in some categories in which the EU ecolabel is not given to chemical cleaning products, e.g., dishwasher detergents.

The Österreichisches Umweltzeichen has conducted strict examinations and certified products and services that comply with its demanding standards for quality, environmental and health protection. It guarantees formulas free of hazardous substances and product design that's long-lasting, usable and compliant with standards.

Based on an audit report submitted to its Quality Committee, "Gütegemeinschaft Rezyklate aus haushaltsnahen Wertstoffsammlungen e. V." this certification serves as proof of our high recycle content in the various types of packaging, from spray bottles to canisters.

The EMAS validation stands as proof of our exemplary ecological orientation and our integrally sustainable corporate philosophy. Every year an independent auditor examines our sites' fulfillment of requirements from the EMAS regulations. It is recognized as the world's most demanding system for sustainable environmental management.

The ISO 14001 is the globally accepted and applied standard for environmental management systems. By satisfying the requirements of the international norm, our Environmental Management System ensures that we improve our environmental performance, fulfill legal obligations and achieve our environmental goals.

The ISO 50001 is the globally accepted and applied standard for energy management systems. The international norm stipulates the requirements for our Energy Management system with which we increase our energy efficiency and continuously improve our energy performance.

The Platinum medal for sustainable business from the renowned CSR/Sustainability rating agency EcoVadis places Tana-Chemie among the most sustainable companies in the world. The demanding audit encompasses 21 indicators in the four major themes of Environment, Labor and Human Rights, Ethics and Sustainable Procurement.

Which system satisfies your requirements?

→ Speed

Ready for Action

Our ready-to-use spray bottles for safe and fast application without measuring.

Load cartridge and „foam spray”

Precise dosing, suitable for mobile use, clever packaging design.

QUICK & EASY

Commitment leads to Change

Acting out of conviction

„Together we are strong” – if we pursue our goals as one, we achieve more. That's why we work in many instances with initiatives, companies and cooperation partners who pursue the same goals as ours.

We all want to protect our environment, promote sustainable production and advance the circular economy in society.

Our Success: The Recyclat Initiative

Microplastic in the oceans is a devastating consequence of the way we handle the flood of waste. The United Nations Environment Programme, the World Economic Forum and international bodies like the Ellen MacArthur Foundation see the solution to the problem in a closed circular economy for plastic. We do too! The Recyclat Initiative is an important step toward this goal.

Our Success: World record

More than 646 million PET bottles made of recyclat have been put into circulation by the Werner & Mertz Group. (As of October 2022)

wir-fuer-recyclat.de

Green Key

Green Key: The Key to Sustainable Accommodations

Hotels, youth hostels, campgrounds and all other types of accommodation require an enormous amount of electricity, water and cleaning products to handle the high number of guests. A minor change in the direction to sustainability can have many positive effects.

Green Key International certifies accommodations that use sustainable business practices. We provide Green Key with our practical Performance Calculator so organization can convince even more companies to think and act sustainably.

Working Together for Sustainability: Our customer success stories

While others only talk about sustainability, we have consistently put it into practice with our customers. With our ecological and recyclable cleaning solu-

tions, we have already eliminated several tons of plastic, crude oil and CO₂ emissions. You too can become a sustainability role model!

Ghent: shines in heroic splendor!

In recent years Ghent, the second largest city in Flanders, has worked steadily to make its municipal cleaning services sustainable and that includes the use of integrally sustainable cleaning products.

Ghent purchases products that satisfy the EU Ecolabel criteria and was the first city to introduce “Cradle to Cradle®” certified products for the cleaning of its buildings and facilities.

Mont-Saint-Michel: Preserve the UNESCO World Heritage Site!

The two Groupe Gaulois hotels clean with Green Care Professional, making them sustainability role models. It sees the use of our eco-certified cleaning products as added value, which can be effectively communicated to the target groups.

You can find more success stories on our Green Care Professional website.

Measure your sustainability progress on get.wmprof.com

Healthy indoor air: Breathing healthy is essential!

The design of airtight buildings promotes sustainable, energy-efficient construction, but also requires the right choice of emission-tested cleaning products so that any negative effects on the indoor air are minimized. The independent Air Label delivers reliable results on the pollutant emissions emitted into the air by the product under normal conditions of use.

Green Care Professional is the first brand of professional cleaners to benefit from the A + Controlled Indoor Air label for professional use.

Why good air quality is so important:

We spend 80 to 90% of our lives in closed rooms.

On average 20,000 breaths per day.

Our Award-winning Engagement

German Environmental Award

„Bold decisions today will trigger positive interactions for tomorrow.“

With these words, German Federal President Frank-Walter Steinmeier presented the German Environmental Award 2019 to our CEO Reinhard Schneider. The jury was particularly impressed by Schneider's commitment to the Recyclate Initiative and his consistent focus on the topic of sustainable management in all parts of the company.

Extensive Service

Based on unique expertise

Our passion for cleanliness and our decades of experience in the cleaning industry make us the perfect contact for all your issues. With us you

benefit from efficient and innovative products and a complete service portfolio too. Here is an overview of our main services:

Our Service Portfolio: For your satisfaction and efficiency

1

Top advice

Our qualified advisors closely examine your cleaning services and help you to optimize them.

- Object files contain detailed information about your object, processes and the products you use.
- Usage technicians advise you on site.

2

Customized concepts

When you need recommendations, cleaning or outbreak plans, we use our expertise to optimize your offers and solve your application problems.

3

Competitive Advantage

Sustainability is becoming more important for society and businesses. Only those companies that can credibly convey their sustainability efforts will realize a competitive advantage. We'll help you to do just that!

- Performance Calculator to figure out potential improvement to your ecological footprint
- Certificate that proves your resource conservation with our products

4

Special Know-how

We'll be happy to bring you and /or your employees up to date in the cleaning industry.

- Training programs in our Green Care Academy.
Read about them on the next page.
- Current information from our newsletter
Tana informs

5

Technical Support

Do you have problems or questions about handling our products?

- We'll provide dosing systems at no cost via a leasing agreement
- Emergency service if dosing system fails or malfunctions

Service info.

We would be pleased to give you information about our services or concrete details on our separate services: info@tana.de

6

Hygiene Assistance

We offer extensive services to set up and maintain first-class hygiene standards.

- On-site consulting by trained disinfection specialists
- Examination and documentation in hygiene audits
- Microbiological testing

Trained sustainably

Master the job with specialist knowledge

In the Green Care Academy we offer you support with product training. In three different ways we ensure that your employees work safely and efficiently. Your employees remain qualified, motivated and always up-to-date.

You can find more information on our Green Care Academy website: Book live trainings and web seminars directly or create a test account for the e-learning platform: www.green-care-academy.com

Live Training

with personal service

In our live training you will be personally looked after by Tana-Chemie employees who have years of practical experience. We offer half and full day seminars on a variety of currently relevant subjects. Company-specific seminars conducted at your site are available upon request.

Web Seminars

Location-independent instruction with trainer

In our Green Care Academy Web Seminars your employees can take part in courses no matter where they are. Active participation is made possible via the Chat function. Choose from our varied topics in compulsory training and continuing education. Company-specific Web seminars are available upon request.

NEW

eLearning

our training platform. Flexible, practical, understandable

With this platform available anytime and anywhere, your employees can learn the course material without classroom training. Users have access to all content, which they can call up many times, and then check their knowledge by answering some questions. Videos of practical work make the material easy to understand.

Arguments in favor of the platform:

- We lay the foundation for your legal certainty by providing all relevant compulsory training.
- Documentation and checks of learning success
- Continuing education and practical know-how

Daily Cleaning and Care

Maintenance Cleaners

TANET SR 15

High performance floor- and surface cleaner

Perfect cleaning results | Good wetting properties | Cost-efficient

High-performance floor and surface cleaner based on alcohol. Ideal maintenance cleaner with outstanding environmental characteristics for the effective cleaning of all water-resistant floorings, e.g., stone, rubber, linoleum, PVC and all washable, smooth and shiny surfaces of plastic, lacquer, glass, ceramics, metal, etc.

712479 – 1 | BOTTLE | 712480 – 5 | CANISTER

DE/020/385

TANET SR 15 F

High performance floor- and surface cleaner

Contains no fragrance or dye | Perfect cleaning results | Good wetting properties

High-performance floor and surface cleaner based on alcohol, without dyes or fragrances. Ideal maintenance cleaner with outstanding environmental characteristics for the effective cleaning of all water-resistant floorings, e.g., stone, rubber, linoleum, PVC and all washable, smooth and shiny surfaces of plastic, lacquer, glass, ceramics, metal, etc.

712605 – 1 | BOTTLE

DE/020/385

TANET karacho

Surfactant-free all purpose cleaner

All-purpose use | User safety | Cost-efficient

Surfactant-free all-purpose cleaner for manual and mechanical cleaning of all water-resistant surfaces and floors, including stone, especially microporous stone flooring. Also suitable for cleaning textiles, walls and ceilings.

712475 – 1 | BOTTLE | 712476 – 5 | CANISTER

DE/020/385

TANET neutral

Neutral cleaner

Top cleaning performance | Degreasing power | Material and skin friendly

Neutral cleaner with optimum cleaning power to remove oily and greasy soiling. Works at economically low concentrations; very good material and skin compatibility. Can be used as hand dishwashing detergent. Pleasant scent.

712555 – 1 | BOTTLE | 712506 – 5 | CANISTER

DE/020/385

TANET orange

Floor and surface cleaner

All-purpose use | Increased user safety | Pleasant orange scent

Ecological, general use floor and surface cleaner. Leaves behind a lingering, pleasant scent of oranges. Very good dirt-holding capacity; with high material compatibility.

712477 – 1 | BOTTLE | 712478 – 5 | CANISTER

DE/020/385

TANET alcoSmart

High performance floor- and surface cleaner

Good wetting properties | Low cost per use | Safe use

TANET alcoSmart gets its effectiveness from the SMART Triple Efficiency formula: special surfactants provide outstanding wetting properties with strong dirt dissolving power and achieve excellent cleaning performance. In an innovative, sustainable bottle with integrated membrane system for safe and flexible dosing.

713473 – 1 | BOTTLE

DE/020/385

Building Care

Daily Cleaning and Care

Maintenance Cleaners

TANET SR 13
Alcohol cleaner

High performing | Streak-free | Pleasant scent

Alcohol cleaner with a uniquely fresh scent. High cleaning performance combined with gentle treatment of materials. Delivers perfect shine retention without streaks and residue. Dries quickly.

716089 – 1 l BOTTLE* | **716165** – 40 ml SACHET | **716090** – 5 l CANISTER*

DE/020/385

TANET dayKliks
High-concentrated floor and surface cleaner

Economical | Good wetting properties | Safe use

Innovative formula with exclusive surfactant combination with exceptional wetting, dispersing and cleaning properties. Perfect cleaning results for floors, surfaces and glass. Leaves behind the refreshing scent of grapefruit. Kliks is a closed dosing system with sustainable packaging and high-performance products. Plastic packaging too is significantly reduced (up to 90%).

715259 – 2 l POUCH

DE/020/385

Glass Cleaners

GLASS cleaner
Glass & window cleaner

Powerful | Increased user safety | Streak-free

GLASS cleaner is a pH neutral, ecological glass cleaner, particularly effective at removing all environment-related dirt deposits, greasy residue and nicotine stains. Cleans without leaving streaks and smears behind. Ready to use, based on ethanol.

712494 – 750 ml SPRAY BOTTLE | **712468** – 1 l BOTTLE | **712469** – 5 l CANISTER

DE/020/384

Glass Cleaners

GLASS classic

Glass & Interior Cleaner

Streak free | Easy application | Cost-in-use

GLASS classic perfectly cleans and degreases smooth surfaces. It preserves glossy materials and dries quickly without leaving traces. GLASS classic has a versatile use and is very cost efficient.

712969 – 750 ml SPRAY BOTTLE | **712693** – 5 l CANISTER

Biotechnological Cleaners

BIOBACT clean

Biotechnological all-purpose cleaner

Cleaning efficiency | Long-lasting cleanliness | Material friendly

Biotechnological cleaner for all waterproof surfaces. Long-lasting elimination of offensive odors; leaves behind a pleasant scent. Regular use prevents new formation of organic contaminants. BIOBACT clean helps to reduce offensive smells in industrial operations, especially in areas who watery solutions are disposed of via the wastewater system.

714707 – 1 l BOTTLE

BIOBACT scent

Biotechnological odour eliminator

Effective odor control | Long-lasting cleanliness | Material friendly

Biotechnological odor eliminator for all waterproof surfaces and fabrics. Long-lasting elimination of offensive odors; leaves behind a pleasant scent. Varied uses in sanitary facilities, drains, trash containers and the like. No hazard labels required.

714709 – 500 ml SPRAY BOTTLE | **714708** – 1 l BOTTLE

Quick-drying | Long-lasting scent | Anti-static

TANET multiclean guarantees cleaning that's gentle to materials. It leaves no streaks or residue and maintains the cleaned surface's shine. Intense and long-lasting room-freshening scent

715779 – 750 ml SPRAY BOTTLE

AT/020/012

Care & Maintenance

TAWIP vioclean

Floor cleaner & care

Natural soap basis | High slip resistance | Cost-efficient

Soap-based floor cleaner and care product with exceptional environmental properties. For use with automatic floor scrubbers or for manual application. With natural coconut oil soap to protect floors from leaching effects. Tested slip resistance in compliance with DIN 18032-2. Effective even in low concentrations.

712484 – 1 | BOTTLE | 712485 – 5 | CANISTER

DE/020/385

TAWIP vioclean C

Floor cleaner and -care

Natural soap basis | Slip resistant | DIN 18032-2 | Cost efficient

TAWIP vioclean C is a floor cleaner that provides extra care by leaving a protective film that prevents leaching. Its highly concentrated formula and special dosing bottle ensure perfect cleaning results at low usage concentration. TAWIP vioclean C was developed with biological cycles and the well-being of future generations in mind.

712936 – 2 | DOSING BOTTLE

TAWIP novo SMART

High Performance Floor Cleaner & Care

High slip resistance | Low usage costs | Safe use

The effectiveness of TAWIP novoSmart comes from the Smart Safe'n' Shine formula: The exclusive 2-in-1 product based on coconut oil soap protects the floor with a long-lasting film. In an innovative bottle with integrated membrane system.

713474 – 1 | BOTTLE

DE/020/385

Building Care

Deep Cleaning and Care

Emulsions

LONGLIFE complete

Ultra-performance floor polish

Completely economical | Completely safe | Completely flexible

High-performance dispersion system with outstanding features. Extremely resistant and durable, thanks to specially developed combination of high-performance polymers. Highly resistant to alcohol and disinfectants. Environmentally compatible formula awarded the Austrian environmental seal. User-friendly; works best in system with LINAX complete. Tested slip resistance in conformance with DIN 18032-2.

712513 – 5 l CANISTER

LONGLIFE matt

High-performance matt floor polish

Resistant | Matte appearance | Increased safety

Provides alcohol and surface disinfectant resistance with a matte look for ideal floor care in healthcare facilities. Resilient, highly elastic protective film that adheres well to all types of flooring, including damp linoleum. Slip resistance tested against DIN 18032-2 criteria. Certified, with Austrian environmental seal.

714289 – 5 l CANISTER

LONGLIFE polish

High-gloss floor polish

All-purpose | Safe use | Cost-efficient

Universal use of floor care dispersion without eco-toxic ingredients such as metal salt (zinc), TBEP, fluorosurfactants and fragrances. Adheres well to surfaces, polishes and restores protective film. LONGLIFE polish is a safe and durable floor polish. Tested slip resistance as per DIN 18032-2. Works best in the system with LINAX stripper. Certified, with Austrian environmental seal.

712514 – 5 l CANISTER

Emulsions

LONGLIFE hospital

Disinfectant – resistant emulsion polish

Disinfectant-resistant | Long-lasting | Easy use

Dispersion with good resistance to alcohol-free disinfectants. Can be applied easily and quickly. Good leveling and low dirt absorption. Suitable for use on all waterproof floor coverings. Ideal for hospitals, healthcare facilities or nursing homes and wherever APESIN is used for cleaning.

716038 – 5 l CANISTER

Basic Cleaners

LINAX complete

Ultra-performance floor stripper

Extremely powerful | Fast-acting | No rinsing

Removes all types of polymer films. Ideally used in the system with LONGLIFE complete. Effectively removes stubborn floor polish films, including on over-treated floors. Can also be used on alkali-sensitive floors. Saves time and resources because rinsing and neutralizing are not required. Certified, with Austrian environmental seal.

712655 – 5 l CANISTER

LINAX stripper

Universal floor stripper

All-purpose | Safe use | Cost-efficient

Universal cleaner with exceptional environmental characteristics. Safe use, suitable on all alkali-sensitive floor coverings. Ideal when used in system with LONGLIFE polish; easily removes multiple layers of LONGLIFE polish polymer coatings. LINAX stripper works without eco-toxic ingredients (phosphates, EDTA, NATA, fragrances, dyes).

712515 – 5 l CANISTER

Building Care

Deep Cleaning and Care

All-purpose and Deep Cleaners

TANEX allround

4 in 1 power cleaner

Versatile | Excellent wetting properties | Powerful

TANEX allround is a high-wetting and slightly alkaline all-purpose deep cleaner for cleaning all waterproof floors and surfaces. The reliable 4-in-1 multi-talent works on heavily soiled surfaces as a maintenance or deep cleaner, final cleaner prior to hand-over or top stripper. Suitable for use with floor scrubbers.

713327 – 1 l BOTTLE | **713328** – 5 l CANISTER

DE/020/385

Scouring Creams

CREAM cleaner

Scouring cream

Powerful cleaning | Material friendly | Surfactants made of up to 75% European rapeseed oil

Ecological scouring cream with lemon scent for a variety of surfaces, including those in sanitary areas. Powerful cleaning with optimized very fine marble dust. Quickly removes stubborn residues and hardened limescale deposits without scratching the surface.

715776 – 500 ml BOTTLE

DE/020/381

CREAM lemon

Scouring cream

Powerful cleaning | Material friendly | Surfactants made of up to 75% European rapeseed oil

Ecological scouring cream with lemon scent for a variety of surfaces, including those in sanitary areas. Powerful cleaning with optimized very fine marble dust. Quickly removes stubborn residues and hardened limescale deposits without scratching the surface.

715798 – 500 ml BOTTLE

DE/020/381

Deep Cleaners in Quick & Easy system, Ready-to-use deep Cleaners

TANEX performa QUICK&EASY

Power cleaner

Powerful | Low residue | Economical

Part of the Quick & Easy portable dosing system, TANEX performa Quick&Easy combines outstanding performance with minimum effort and low usage costs. With no CLP-classified hazardous ingredients, the product ensures maximum user safety. Works quickly to remove stubborn stains of many different types. Low residue formation. Maintains the original appearance of the surface. Leaves behind a pleasant scent.

713672 – 325 ml CARTRIDGE

AT/020/012

TANEX power

Ready-to-use plastic cleaner

Powerful | Efficient & economical | Varied uses

Ready-to-use power cleaner for synthetic surfaces with an excellent stain remover for many types of stubborn stains such as ink from inkpads or ballpoint pens and text markers, fingerprints, nicotine and cosmetics. Highly efficient, quick use.

715930 – 750 ml SPRAY BOTTLE | **715931** – 5 l CANISTER

AT/020/012

Sanitary Cleaning

Basic and Deep Sanitary Cleaners

SANET perfect

Sanitary cleaner and descaler

Outstanding performance | Special acid-surfactant combination | Cost-efficient

SANET perfect is a highly-effective, ecological cleaner and descaling agent for sanitary areas. With its special combination of acids and surfactants, SANET perfect effectively and gently removes limescale, grease, soap scum with its first use and thus proves its economic efficiency. Low foaming action; suitable for use with floor scrubbers.

But we do not stop here yet!

Our Green Care family continues to grow.

go
green
Initiative

New record:
+200 product
certifications

In the overview online at **lets-gogreen.com** you can see which Tana Professional products we have already converted and the improvements we've made as we push to complete the Go Green program.

However, we are working to continue to bring the conversions forward in order to complete the Go Green program one step at a time.

A lot of changes are coming, so stay tuned!
