

A CIRCULAR FUTURE

“A credible eco product can come only from a company that consistently pursues sustainability in everything it does, guided by ecological awareness, economic foresight and social responsibility every single day.”

Reinhard Schneider,
CEO and owner of Werner & Mertz

Laundry Hygiene **60**

Werner & Mertz
Professional

Pioneer for more than 150 years: Werner & Mertz Professional – A company with a vision

For more than 150 years, the family-owned Werner & Mertz has been successful in the market as an umbrella brand and European forerunner in innovations for the cleaning industry. In 1971 Tana-Chemie was set up with offerings tailored to professional cleaning services. Our established brands Green Care Professional and

Tana Professional, supported by highly qualified and motivated employees, stand for the entire company's unwavering commitment to sustainability. We are driven by our desire to make a sustainable lifestyle attainable for the majority even beyond the boundaries of our brand.

1971

Founding of
Tana-Chemie GmbH

1989

Launch of the
Green Care brand

2003

EMAS-certified production
site in Mainz, Germany. Followed by
Hallein, Austria in 2005.

2005

First EU Ecolabel
certification

Better across the industry:

Wherever people come together,
our cleaning products are put to use.

Together we are on the way to becoming the European market and innovation leader in professional specialized care. In our sector we will succeed with exemplary ecological products and concepts designed and developed for the circular economy. Based on our many years of experience, we provide our customers with comprehensive, customized and integrally sustainable hygiene solutions that contribute to their success.

Some of our major sectors:

- Offices and commercial space
- Healthcare facilities
- Hotels, cafés and restaurants
- Transportation and traffic
- Public institutions
- Industry

Strong brands

Our two pioneer brands Green Care Professional and Tana Professional have their origin in the sustainability philosophy of our company. Linking tradition with innovation, they set standards in cleaning performance, economic efficiency and user safety. Read more about our strong brands on pages 10 and 11.

2013
First Cradle-to-Cradle® Gold certification for a complete range of cleaning products

2014
First bottle of 100% recycle

2018
Release of the Green Care Performance Calculator

2025

Production of more than 1 billion bottles made from post-consumer recycle and new top score in EcoVadis rating

www.circular-success.com

Cradle to Grave: The materials flow with no consideration given to long-term resource conservation from the source to the landfill

No consideration for long-term conservation of resources
"One-way design": Take – Make – Waste

Are we digging our own grave?

Rainforests on fire, plastic waste on land and sea, climate change and species extinction are some of the world's current problems. The scientific framework of planetary boundaries describes nine environmental systems that interact with each other and affect the stability of Earth. Six of the nine boundaries have already been crossed. How did this turning point come about? To answer that question, we have to look at the currently predominant economic system – the one-way street – that is leading us into a dead end.

Take – Make – Waste

The material flow design still used today for most products is referred to as "cradle to grave". Its focus is on the product's usage phase. "Cradle to Grave" ignores the origin and the ultimate fate of a product. The environmental impact during production is neglected too. Nevertheless, many companies have found a dubious way out of the dead end in the climate-damaging one-way street. Carbon offsetting gives them the chance to disguise the real environmental impact of their products.

All signs point to change

At Green Care Professional we are convinced that first and foremost, companies have to reduce their CO₂ emissions and communicate that clearly and comprehensibly. Buying a way out through carbon offsetting alone won't change a thing. The time has come to bring about the ecological transformation at an industrial level.

How can
we manage
the transformation
without giving up too much?

Simply turn the page.

... the future belongs to the circular economy

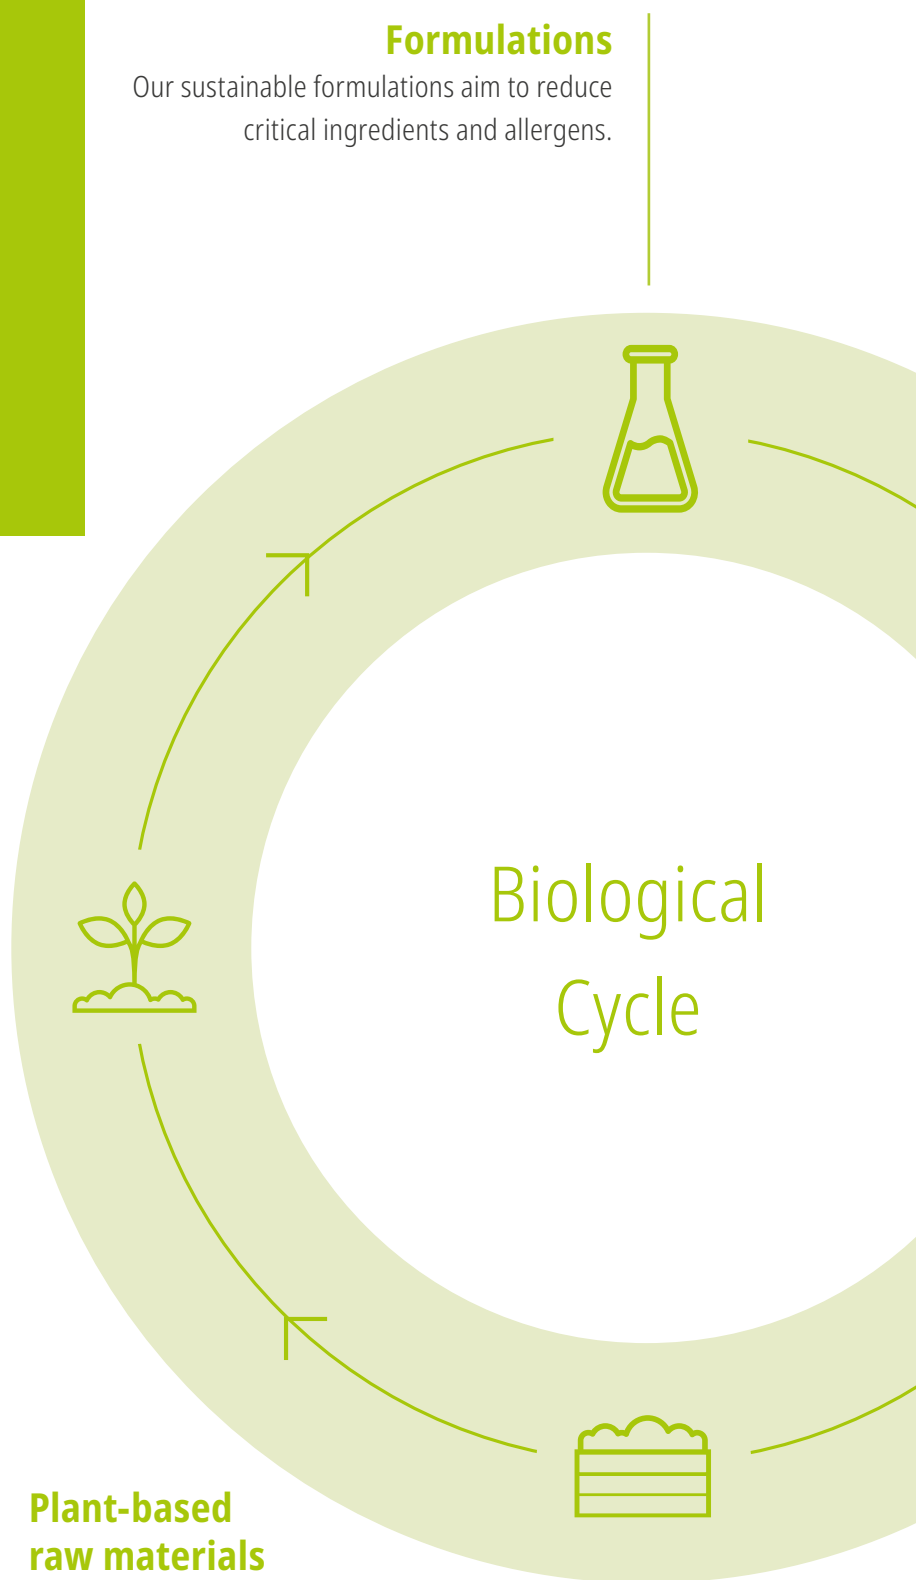

Formulations

Our sustainable formulations aim to reduce critical ingredients and allergens.

Sustainability has taken on a much bigger role. The one-dimensional Cradle to Grave principle, however, is still applied and supplemented merely by a reduction in the use of raw materials and resources. The issue: efficiency is improved, but no effectiveness is achieved.

No room for compromise in a true circular economy

In the circular economy according to the Cradle to Cradle® principle, how it is practised holistically with our Green Care Professional brand, the raw materials can be reused and pollutants are thus prevented from getting into the environment. The origin and fate of ingredients are kept in closed cycles, i.e., cleaning chemicals in the biological cycle and packaging in the technical cycle.

Plant-based raw materials

We use renewable raw materials based on plants.

Biodegradability

Our formulations are biodegradable according to OECD 302 B standard.

Packaging

Waste is a resource for us: 80% of our Green Care Professional bottles and 5L canisters are made from 100% recycled material and are fully recyclable.

Technical Cycle

Collecting

Through disposal via the municipal waste system, the empty packaging is returned to the recycling cycle.

Sorting & Recycling

The plastic is sorted according to plastic type and color. The sorted types of plastic are processed and turned into granules.

Our Products

Our development guidelines follow Nature's example

Our development guidelines, which form the basis for our entire Green Care portfolio, follow the Cradle to Cradle® Principle. Ever since our brand was established, we have worked at optimizing our technical and biological recycling in order to make our formulas and packaging even more sustainable.

Green Care Professional – symbiosis of biology and technology:

- Strong cleaning power
- Excellent price/performance ratio
- Safe for humans and Nature

| Formulas

In development and production, we consistently use renewable energy technology and raw materials. We continuously reduce by-products, pollutants and residues in our formulas. We also pay attention to the biological degradability of materials and exclude raw materials with negative environmental impact in compliance with EU Ecolabel requirements.

Our formulations are developed with the goal of minimizing hazardous materials and reducing potential impact on people and the environment.

*We promote the use of plant-based surfactants of European origin in our formulations.

| Packaging

In order to do without virgin plastic made from crude oil and to conserve our fossil resources, we rely on recycle from the Yellow Bag. We refrain from using PS (polystyrene) and PVC for our packaging components.

The recycle share in our bottles is 100% and our bottles are completely recyclable. After their disposal, they can be returned safely to the material cycle.

In the long term we will use 100% recycle from the household waste collection "Yellow Bag" for our PET bottles. Until a complete switch is possible, we supplement the material with recycle obtained from deposit bottles.

Yellow Bag
Yellow Bin

PET deposit
bottle collection

*Exception: Dangerous goods packaging.

Our development guideline

Safe and fair for humans and the environment

The Green Care Professional development guidelines contribute to achieving several Sustainable Development Goals (SDGs) and support the European Green Deal.

Material health & ecology

With the Type 1 Ecolabel, Green Care Professional can verify that the exclusion of toxic ingredients makes its formulations harmless to human life and the environment. Only harmless fragrances and dyes are used in accordance with Ecolabel criteria. Animal-origin ingredients, PFAS and synthetic polymers to avoid micro-plastic are excluded from Green Care Professional formulations. The packaging does without phosphates and PVC. Our use of renewable energies, in-house production of electricity from wind and solar power and sustainable production in accordance with ISO 14001 and 50001 at our EMAS-certified European sites with in-house water treatment facilities distinguish us as sustainability pioneers.

Circularity

Formulation

Origin: We use renewable plant-based raw materials instead of fossil sources and regenerative, degradable solvents with low limits. We promote the use of surfactants of European origin to support native species diversity.

Remaining: The goal is the reduction of by-products, contamination and residue, plus rapid, high biological degradability of organic materials.

Packaging

Origin: Avoidance of fossil resources through the use of Post-Consumer Recyclate from household waste collections like the Yellow Bag in bottles and caps.

Remaining: Design for Recycling of packaging to allow mechanical recycling without loss of quality (upcycling).

Social fairness

Our suppliers' code of conduct for the entire value chain ensures integrity, honesty, respect for human dignity and responsible handling of our resources. Production takes place in Germany and Austria. We assume responsibility for our customers through the full declaration of all our ingredients and our own customer training in the safe and proper handling of cleaning agents.

Economy

Sustainable procurement with Green Care Professional is economical, thanks to low cost per use. Our products are less expensive than conventional cleaning agents although they are sustainable. The recyclable packaging saves money on disposal. Intelligent, efficient dosing technology and ultra-concentrated formulations increase our customers' economic efficiency. The broad range of CLP-free products also reduces personnel training expenses.

Performance

The combination of top cleaning performance and sustainability does not require doing without anything found in conventional cleaning agents. Within the scope of Ecolabel certification, performance has been verified by marketing testing or performance checks by external testing institutions. Our intelligent dosing systems strengthen the efficient use of our cleaning products.

Outstanding Work for the Environment

Certificates: Proof of our progress

Our Green Care Professional portfolio offers a broad assortment of certified products. For all areas of application we have products that have earned at least one certification. This fact distinguishes us from other manufacturers and makes clear that genuine sustainability has to be practiced in the entire company if it is to be credible. We are a pioneer in the industry with the most Cradle to Cradle® certified products and are proud that we have proof of the recyclability of our formulas and our packaging.

At our production sites in Mainz and Hallein, we implement the highest quality and environmental standards and see them reflected in our certifications.

Mobility

Precise dosing, suitable for mobile use, clever packaging design.

Commitment leads to Change

Acting out of conviction

“Together we are strong” – if we pursue our goals as one, we achieve more. That's why we work in many instances with initiatives, companies and cooperation

partners who pursue the same goals as ours. We all want to protect our environment, promote sustainable production and advance the circular economy in society.

Our Success: The Recyclate Initiative

Microplastic in the oceans is a devastating consequence of the way we handle the flood of waste. The United Nations Environment Programme, the World Economic Forum and international bodies like the Ellen MacArthur Foundation see the solution to the problem in a closed circular economy for plastic. We do too! The Recyclate Initiative is an important step toward this goal.

Werner & Mertz sets a world record: one billion bottles of 100 percent Post-Consumer Recyclate!

We set a new world record on 23 June 2025. Since the start of its Recyclate Initiative, we have brought one billion rPET bottles of 100 percent Post-Consumer Recyclate to the market.

wir-fuer-recyclat.com

Green Key: The Key to Sustainable Accommodations

Hotels, youth hostels, campgrounds and all other types of accommodation require an enormous amount of electricity, water and cleaning products to handle the high number of guests. A minor change in the direction to sustainability can have many positive effects.

Green Key International certifies accommodations that use sustainable business practices. We provide Green Key with our practical Performance Calculator so organization can convince even more companies to think and act sustainably.

Working Together for Sustainability: Our customer success stories

While others only talk about sustainability, we have consistently put it into practice with our customers. With our ecological and recyclable cleaning solutions,

we have already eliminated several tons of plastic, crude oil and CO₂ emissions. You too can become a sustainability role model!

Ghent: shines in heroic splendor!

In recent years Ghent, the second largest city in Flanders, has worked steadily to make its municipal cleaning services sustainable and that includes the use of integrally sustainable cleaning products. Ghent purchases products that satisfy the EU Ecolabel criteria and was the first city to introduce Cradle-to-Cradle® certified products for the cleaning of its buildings and facilities.

Mont-Saint-Michel: Preserve the UNESCO World Heritage Site!

The two Groupe Gaulois hotels clean with Green Care Professional, making them sustainability role models. It sees the use of our eco-certified cleaning products as added value, which can be effectively communicated to the target groups.

You can find more success stories on our Green Care Professional website.

Measure your sustainability progress on get.wmprof.com

SIRH/+ BOCUSE D'OR

Bocuse d'Or: Culinary Arts meets Social Commitment

Green Care Professional is in the chefs' corner during culinary competitions, working to ensure flawless kitchen hygiene.

Green Care Professional is not just a partner at the Bocuse d'Or grand finale but also the presenter of the Social Commitment Award bestowed at the event. An international jury honors one of the competing teams of chefs for its social engagement and thereby supports outstanding projects in food aid or sustainable development.

Our Award-winning Engagement

German Environmental Award

“Bold decisions today will trigger positive interactions for tomorrow.”

With these words, German Federal President Frank-Walter Steinmeier presented the German Environmental Award 2019 to our CEO Reinhard Schneider. The jury was particularly impressed by Schneider's commitment to the Recyclate Initiative and his consistent focus on the topic of sustainable management in all parts of the company.

Extensive Service

Based on unique expertise

Our passion for cleanliness and our decades of experience in the cleaning industry make us the perfect contact for all your issues. With us you

benefit from efficient and innovative products and a complete service portfolio too. Here is an overview of our main services:

Our Service Portfolio: For your satisfaction and efficiency

1 Top advice

Our qualified advisors closely examine your cleaning services and help you to optimize them.

- Object files contain detailed information about your object, processes and the products you use.
- Usage technicians advise you on site.

2 Customized concepts

When you need recommendations, cleaning or outbreak plans, we use our expertise to optimize your offers and solve your application problems.

3 Competitive Advantage

Sustainability is becoming more important for society and businesses. Only those companies that can credibly convey their sustainability efforts will realize a competitive advantage. We'll help you to do just that!

- Performance Calculator to figure out potential improvement to your ecological footprint
- Certificate that proves your resource conservation with our products

4 Special Know-how

We'll be happy to bring you and / or your employees up to date in the cleaning industry.

- Training programs in our Green Care Academy. Read about them on the next page.
- Current information from our newsletter "Tana informs"

5 Technical Support

Do you have problems or questions about handling our products?

- We'll provide dosing systems at no cost via a leasing agreement
- Emergency service if dosing system fails or malfunctions

Service info.

We would be pleased to give you information about our services or concrete details on our separate services: info@tana.de

6 Hygiene Assistance

We offer extensive services to set up and maintain first-class Hygiene standards.

- On-site consulting by trained disinfection specialists
- Examination and documentation in Hygiene audits
- Microbiological testing

Can I count on you?

My future is calculable!

Preserve the green soul of our earth today for tomorrow with the Green Care Performance Calculator.

Companies are increasingly focused on reducing their ecological footprints. With our Green Care Performance Calculator, you can now track your resource savings, the share of certified products, and - new for the first time - the proportion of your packaging made from post-consumer recycle (PCR).

Benefits across all application areas

Our Green Care Performance Calculator shows how much you have reduced your environmental impact in every area of application. Clients can leverage these certified results in tenders, proposals, and as credible, positive PR for sustainability reporting.

 **Less carbon dioxide (CO₂)**

 **Less crude oil**

 **Less plastic**

 **PCR (container)**

 **PCR (total packaging)**

Certified calculation method:

"We confirm that the savings in crude oil and carbon emissions determined by the Performance Calculator were correctly calculated for both the packaging components and the detergent formulations of all Green Care Professional products."

Intechnica Cert GmbH

Professional Cleaning

First the facts

pH Value

The pH value, which specifies the degree of aggressiveness of acids or alkalis, is an important indicator of the material compatibility of the cleaning agent and its cleaning properties.

pH value < 7 (acidic): inorganic or mineral soiling, e.g., limestone or pigments

pH value = 7 (neutral): all-purpose, neutral cleaner with help from surfactants or emulsifiers

pH value > 7 (alkaline): organic soiling, e.g., grease or protein

Color System

Our color coding system shows the proper usage area for cleaning agents and adheres to requirements for professional cleaning:

- Sanitary area (e.g., SANET)
- Surfaces (e.g., TANET & TANEX)
- Floor cleaning (e.g., TAWIP)

Sinner's Circle

According to Sinner, a wash and cleaning process involves four interdependent cleaning factors whose respective sizes can be altered.

Perfectly prepared for everyday cleaning jobs.

In the Green Care Academy we offer you support with product training. In three different ways we ensure that your employees work safely and efficiently: live training, web seminars and eLearning.

Building Care

Daily Cleaning and Care

Maintenance Cleaners

TANET uni SWITCH

Ultra-concentrated floor- and surface cleaner

Exact dosing | Safe application | Reduce, Reuse, Recycle

Ultra-concentrated cleaner on alcohol basis for floor and surfaces. Good wetting properties ensure easy and thorough removal of dirt and grease from porous stone floors and even from hydrophobic surfaces such as PUR, leaving no streaks or stripes. Suitable for all water-resistant floors such as stone, rubber, linoleum, PVC, PUR etc. Ultra-concentrated and EU Ecolabel certified formulation.

716155 – 1 L BOTTLE* | 716230 – 1 L POUCH**

TANET SR 15

High performance floor- and surface cleaner

Perfect cleaning results | Good wetting properties | Cost-efficient

High-performance floor and surface cleaner based on alcohol. Ideal maintenance cleaner with outstanding environmental characteristics for the effective cleaning of all water-resistant floorings, e.g., stone, rubber, linoleum, PVC and all washable, smooth and shiny surfaces of plastic, lacquer, glass, ceramics, metal, etc.

712479 – 1 L BOTTLE | 712480 – 5 L CANISTER | 712481 – 200 L BARREL

TANET SR 15 zero%

High performance floor- and surface cleaner

Contains no fragrance or dye | Perfect cleaning results | Good wetting properties

High-performance floor and surface cleaner based on alcohol, without dyes or fragrances. Ideal maintenance cleaner with outstanding environmental characteristics for the effective cleaning of all water-resistant floorings, e.g., stone, rubber, linoleum, PVC and all washable, smooth and shiny surfaces of plastic, lacquer, glass, ceramics, metal, etc.

717141 – 1 L BOTTLE

TANET karacho zero%

Surfactant-free all purpose cleaner

All-purpose use | User safety | Cost-efficient

Surfactant-free all-purpose cleaner for manual and mechanical cleaning of all water-resistant surfaces and floors, including stone, especially microporous stone flooring. Also suitable for cleaning textiles, walls and ceilings.

DE/020/385

717226 – 750 ml SPRAY BOTTLE | **717223** – 1 L BOTTLE | **717221** – 5 L CANISTER

TANET neutral

Neutral cleaner

Top cleaning performance | Degreasing power | Material and skin friendly

Neutral cleaner with optimum cleaning power to remove oily and greasy soiling. Works at economically low concentrations; very good material and skin compatibility. Can be used as hand dishwashing detergent. Pleasant scent.

DE/020/385

712555 – 1 L BOTTLE | **712506** – 5 L CANISTER

TANET orange

Floor and surface cleaner

All-purpose use | Increased user safety | Pleasant orange scent

Ecological, general use floor and surface cleaner. Leaves behind a lingering, pleasant scent of oranges. Very good dirt-holding capacity; with high material compatibility.

DE/020/385

712477 – 1 L BOTTLE | **712478** – 5 L CANISTER

Building Care

Daily Cleaning and Care

Maintenance Cleaners

TANET day KLIKS

High-concentrated floor and surface cleaner

Economical | Good wetting properties | Safe use

Innovative formula with exclusive surfactant combination with exceptional wetting, dispersing and cleaning properties. Perfect cleaning results for floors, surfaces and glass. Leaves behind the refreshing scent of grapefruit. Kliks is a closed dosing system with sustainable packaging and high-performance products. Kliks stands for controlled dosing and efficiency, reduced space requirements during use and maximum user safety. Plastic packaging too is significantly reduced (up to 90%).

715259 – 2 L POUCH

TANET SR 13

Alcohol cleaner

High performing | Streak-free | Pleasant scent

Alcohol cleaner with a uniquely fresh scent. High cleaning performance combined with gentle treatment of materials. Delivers perfect shine retention without streaks and residue. Dries quickly.

716165 – 40 ml POUCH | **716089** – 1 L BOTTLE
716090 – 5 L CANISTER | **716091** – 200 L BARREL

Maintenance Cleaners in Quick & Easy system, Ready-to-use Cleaners

TANET interior QUICK&EASY

Universal surface cleaner

High performance | Streak-free | Versatile

Part of the Quick & Easy portable dosing system, the highly concentrated TANEX performa Quick & Easy combines outstanding performance with minimum effort and low usage costs. With no CLP-classified hazardous ingredients, the product ensures maximum user safety. Stable, compact foam. Dries quickly without streaks or smears. can be used to clean windows. High material compatibility. Pleasant scent.

713658 – 325 ml CARTRIDGE

AT/020/012

TANET interior F QUICK&EASY

Universal surface cleaner

No fragrance or dye | High performance | Streak-free

The perfume and dye-free TANET interior F offers top user safety and outstanding performance. Part of the Quick & Easy portable dosing system, TANET interior F Quick & Easy stands for efficient use at low operating costs. Contains no CLP-classified hazardous substances. Stable, compact foam. Dries quickly without leaving behind streaks and smears. Can be used for window cleaning too. High material compatibility.

714481 – 325 ml CARTRIDGE

AT/020/012

TANET multiclean

Ready-to-use all purpose cleaner

Quick-drying | Long-lasting scent | Anti-static

TANET multiclean guarantees cleaning that's gentle to materials. It leaves no streaks or residue and maintains the cleaned surface's shine. Intense and long-lasting room-freshening scent

715779 – 750 ml SPRAY BOTTLE

AT/020/012

Building Care

Daily Cleaning and Care

Glass Cleaners

GLASS cleaner

Glass and window cleaner

Powerful | Increased user safety | Streak-free

GLASS cleaner is a pH neutral, ecological glass cleaner, particularly effective at removing all environment-related dirt deposits, greasy residue and nicotine stains. Cleans without leaving streaks and smears behind. Ready to use, based on ethanol.

712494 – 750 ml SPRAY BOTTLE | 712468 – 1 L BOTTLE | 712469 – 5 L CANISTER

DE/020/384

GLASS classic

Glass and Interior Cleaner

Streak free | Easy application | Cost-in-use

GLASS classic perfectly cleans and degreases smooth surfaces. It preserves glossy materials and dries quickly without leaving traces. GLASS classic has a versatile use and is very cost efficient.

712969 – 750 ml | 712693 – 5 L CANISTER

DE/020/384

Biotechnological Cleaners

BIOBACT clean

Biotechnological all-purpose cleaner

Cleaning efficiency | Long-lasting cleanliness | Material friendly

Biotechnological cleaner for all waterproof surfaces. Long-lasting elimination of offensive odors; leaves behind a pleasant scent. Regular use prevents new formation of organic contaminants. BIOBACT clean helps to reduce offensive smells in industrial operations, especially in areas who watery solutions are disposed of via the wastewater system.

716817 – 1 L BOTTLE

DE/020/385

Biotechnological Cleaners

BIOBACT scent

Biotechnological odour eliminator

Effective odor control | Long-lasting cleanliness | Material friendly

Biotechnological odor eliminator for all waterproof surfaces and fabrics. Long-lasting elimination of offensive odors; leaves behind a pleasant scent. Varied uses in sanitary facilities, drains, trash containers and the like. No hazard labels required.

716814 – 500 ml SPRAY BOTTLE | **716813** – 1 L BOTTLE

BIOBACT power

Powerful biotechnological all-purpose cleaner

Powerful cleaning | Odor elimination | Long lasting perfume

BIOBACT power is a powerful, mildly alkaline cleaner with biotechnological odour removal. Double action: simple and deep cleaning of all floors and surfaces in just one step. The probiotic ingredients reach dirt even in hard-to-reach places. This removes unpleasant odours for the long term. Self-active cleaning even after use thanks to the use of microorganisms.

716825 – 1 L BOTTLE

Care & Maintenance

TAWIP neo

Wipe care based on biopolymers

Care & cleaning | Water-soluble biopolymers | DIN 18032-2 certified

TAWIP neo is based on innovative water-soluble biopolymers of European origin. The extremely low-foam formula leaves behind an even, silky-gloss finish with outstanding coverage and a pleasant room fragrance. TAWIP neo does not contain any waxes. It therefore guarantees a uniform appearance and prevents unwanted layer build-up and smear marks..

717137 – 1 L BOTTLE | **717146** – 5 L CANISTER

Building Care

Daily Cleaning and Care

Care & Maintenance

TAWIP vio SWITCH

Ultra concentrated floor cleaner and -care

Exact dosing | Safe application | Reduce, Reuse, Recycle

The natural coconut fat soap in the formula protects floors from leaching effects. Leaves a protective film with antistatic effect, reducing the danger of slipping in compliance with DIN 18032-2. Ideally suitable for mechanical and manual maintenance cleaning of all water-resistant floors in objects demanding highest floor care and slip resistance. Ultra-concentrated and EU Ecolabel certified formulation.

716156 – 1 L BOTTLE* | 716233 – 1 L POUCH**

TAWIP vioclean

Floor cleaner and -care

Natural soap basis | High slip resistance | Cost-efficient

Soap-based floor cleaner and care product with exceptional environmental properties. For use with automatic floor scrubbers or for manual application. With natural coconut oil soap to protect floors from leaching effects. Tested slip resistance in compliance with DIN 18032-2. Effective even in low concentrations.

712484 – 1 L BOTTLE | 712485 – 5 L CANISTER

TAWIP vioclean zero%

Floor cleaner and -care

Increased user safety | High slip-resistance | Perfume & dye free

Soap-based floor clean and care product, contains no dyes or fragrances, with exceptional environmental characteristics. Suitable for use with automatic floor scrubbers. Natural coconut oil soap protects floors from leaching effects. Leaves a silky shiny protective film with anti-static effect and tested slip resistance in compliance with DIN 18032-2. Effective even at low concentrations. Made mostly of renewable resources, TAWIP vioclean zero% contributes to the well-being of future generations.

717139 – 1 L BOTTLE

Emulsions

LONGLIFE complete

Ultra-performance floor polish

Completely economical | Completely safe | Completely flexible

High-performance dispersion system with outstanding features. Extremely resistant and durable, thanks to specially developed combination of high-performance polymers. Highly resistant to alcohol and disinfectants. Environmentally compatible formula awarded the Austrian environmental seal. User-friendly; works best in system with LINAX complete. Tested slip resistance in conformance with DIN 18032-2.

712513 – 5 L CANISTER

LONGLIFE matt

High-performance matt floor polish

Resistant | Matte appearance | Increased safety

Provides alcohol and surface disinfectant resistance with a matte look for ideal floor care in healthcare facilities. Resilient, highly elastic protective film that adheres well to all types of flooring, including damp linoleum. Slip resistance tested against DIN 18032-2 criteria. Certified, with Austrian environmental seal.

714289 – 5 L CANISTER

LONGLIFE polish

High-gloss floor polish

All-purpose | Safe use | Cost-efficient

Universal use of floor care dispersion without eco-toxic ingredients such as metal salt (zinc), TBEP, fluorosurfactants and fragrances. Adheres well to surfaces, polishes and restores protective film. LONGLIFE polish is a safe and durable floor polish. Tested slip resistance as per DIN 18032-2. Works best in the system with LINAX stripper. Certified, with Austrian environmental seal.

712514 – 5 L CANISTER

Building Care

Deep Cleaning and Care

Emulsions

LONGLIFE hospital

Disinfectant – resistant emulsion polish

Disinfectant-resistant | Long-lasting | Easy Application

Dispersion with good resistance to alcohol-free disinfectants. Can be applied easily and quickly. Good leveling and low dirt absorption. Suitable for use on all waterproof floor coverings. Ideal for hospitals, healthcare facilities or nursing homes and wherever APESIN is used for cleaning.

716038 – 5 L CANISTER

LONGLIFE diamond

Long-lasting, high gloss emulsion polish

Good wear resistance | High gloss | Easy use

LONGLIFE diamond lays down a very glossy, smear-resistant and anti-slip protective film with excellent resistance to heel marks, tracks and soiling. Outstanding flow. High leveling capacity on absorbent flooring coverings. Especially economical; very little product is needed for one application.

716060 – 5 L CANISTER

LONGLIFE stone

Long-lasting, high-gloss emulsion polish

Long-lasting | High gloss | For stone flooring

Highly durable dispersion of all natural and artificial stone floors. Not suitable for use on glazed tiles, fine stoneware and high-gloss polished natural stone.

716062 – 5 L CANISTER

Basic Cleaners

LINAX complete

Ultra-performance floor stripper

Extremely powerful | Fast-acting | No rinsing

Removes all types of polymer films. Ideally used in the system with LONGLIFE complete. Effectively removes stubborn floor polish films, including on over-treated floors. Can also be used on alkali-sensitive floors. Saves time and resources because rinsing and neutralizing are not required. Certified, with Austrian environmental seal.

712655 – 5 L CANISTER

LINAX stripper

Universal floor stripper

All-purpose | Safe use | Cost-efficient

Universal cleaner with exceptional environmental characteristics. Safe use, suitable on all alkali-sensitive floor coverings. Ideal when used in system with LONGLIFE polish; easily removes multiple layers of LONGLIFE polish polymer coatings. LINAX stripper works without eco-toxic ingredients (phosphates, EDTA, NATA, fragrances, dyes) and therefore has a low impact on indoor air quality. Certified, with Austrian environmental seal.

712515 – 5 L CANISTER

Building Care

Deep Cleaning and Care

All-purpose and Deep Cleaners

TANEX allround

4 in 1 power cleaner

Versatile | Excellent wetting properties | Powerful

TANEX allround is a high-wetting and slightly alkaline all-purpose deep cleaner for cleaning all waterproof floors and surfaces. The reliable 4-in-1 multi-talent works on heavily soiled surfaces as a maintenance or deep cleaner, final cleaner prior to hand-over or top stripper. Suitable for use with floor scrubbers.

713327 – 1 L BOTTLE | 713328 – 5 L CANISTER

High performance, ecological laundry tabs

Easy dosing | Long lasting freshness | For all fabrics

ACTIV tabs, which are made from carefully selected raw materials, are ideal for sensitive skin. They achieve excellent cleaning results and offer top washing performance for all white and colored fabrics. Sustainable ACTIV tabs contain renewable raw materials and fulfill Ecolabel criteria.

715163 – 56 TABS
*pH value at 10 g/L

ACTIV bicompact

Ultra Concentrated Laundry Detergent

High performance | Long-lasting scent | Highly concentrated

Especially economical compact laundry detergent with fivefold bio-enzyme system and oxygen-based bleach. High-performance washing power at low temperatures and low doses. Saves 60% of energy costs and time with shorter wash cycles.

716249 – 10 kg BAG | 716500 – 10 kg BOX*
*pH value at 5 g/L

ACTIV performa

High bleaching and degreasing washing powder

Enzyme-based | Stain remover

With a high proportion of bleaching agents, ACTIV performa removes all types of stains (wine, tea, coffee, lipstick, etc.) and guarantees radiant white laundry. Even removes hardened food residue such as grease and egg and achieves optimum washing results at all water temperatures.

716052 – 15 kg SACK
*pH value at 10 g/L

ACTIV intense

Complete washing powder – long lasting perfume

All-purpose use | Fresh scent | Radiant white laundry, at 30°C

ACTIV intense works efficiently at temperatures starting at 30°C. With an enzyme-based formula, ACTIV intense delivers bright white laundry and removes all kinds of stains. The fresh scent lingers on the clean laundry.

716051 – 15 kg SACK

*pH value at 10 g/L

ACTIV color

Complete powder for coloured textiles

Enzyme-based | No color fading

ACTIV color contains neither bleaching agents nor optical brighteners, so it protects colored laundry from fading. The formula's enzymes and emulsifying action make ACTIV color suitable for pre-washing. ACTIV color is effective at all water temperatures.

716050 – 10 kg SACK

*pH value at 10 g/L

Laundry hygiene

Stain removers

SOLUS multi

Pre-wash spotter for protein and greasy stains

Easy-to-use | For all fabrics | Efficient stain remover without bleaching agents

SOLUS multi effortlessly removes greasy, proteinaceous soiling. Without bleaching additives or optical brighteners. The product is therefore suitable for all fabrics, including delicate washables and colored laundry. The formula is based on renewable raw materials.

713068 – 750 ml SPRAY BOTTLE

DE/006/037

SOLUS oxydet

Colored stains remover without chlorine

Without chlorine bleach | Removes colored stains | Easy application

With a special combination of active ingredients, SOLUS oxydet effectively removes colored stains. SOLUS oxydet contains neither chlorine bleach nor optical brighteners and therefore can be used on delicate or colored fabrics.

715970 – 750 ml SPRAY BOTTLE

Bleaching Additives

SYSTEM white KLIKS

Ultra-concentrated laundry bleaching additive

Efficient at low temperatures | Powerful stain remover | Saves energy, reduces waste

SYSTEM white Kliks achieves bright white cleaning results. Easily removes all bleachable stains such as wine, coffee or tea. Suitable for use at low temperatures, making it perfect for fabrics that should be washed only at 30°C. For use in Kliks-System.

714349 – 10 L BAG IN BOX

AT/039/003

Detergent Booster

SYSTEM alca

Alkaline liquid booster

Pure power | Automatic dosing | Renewable ingredients

SYSTEM alca can be used as a pure alkaline detergent or in the system as a washing power booster. Removes stubborn stains and offers a good bond to greasy residue. It contains an innovative system of chelating agents based on renewable resources. Excludes the use of eco-toxic ingredients such as NTA, EDTA and phosphates.

712826 – 15 L CANISTER | **714630** – 200 L BARREL

*pH value at 1%

SYSTEM power KLIKS

Ultra-concentrated alkaline liquid booster

Ultra concentrated | Highest degreasing power | Water softening ability

ACTIV power Kliks contains no bleaching agents. It is material friendly and compatible with all types of fabrics. Excellent washing performance at temperatures of 30°C and higher. The anti-graying system permits versatile use for all types of water and water hardness and from slightly to heavily soiled laundry. For use in Kliks-System.

714348 – 10 L BAG IN BOX

*pH value at 1%

SYSTEM tensioplus

Tensio-active liquid agent

Against grease and oil soiling of textiles | Highly concentrated

With its special surfactants especially for cleaning textiles soiled with grease and oil. Effective and powerful for cleaning workwear in kitchen, food processing industry and workshops. Also for cleaning textiles such as mops and cleaning rags. Can be used as a sole detergent for low water hardness.

716840 – 15 L CANISTER | **716841** – 60 L BARREL

SOFT nature

Hypoallergenic last rinse fabric softener

Hypoallergenic | Fresh perfume | European plant-based

Fabric softener based on 100% regenerative vegetable raw materials; contains no dyes or preservatives. Leaves laundry velvety soft with a naturally fresh scent. Makes ironing fast and easy.

713163 – 5 L CANISTER

SOFT bloom KLIKS

Ultra-concentrated liquid fabric softener

Economic in use | Pleasant scent | For all water types

SOFT bloom Kliks with natural based softening agents and special tensides, enabling a removal of static electricity for a "triple action", combines a flowery scent, velvet softness and allows a quick and easy ironing.

1114350 – 10 L BAG IN BOX

SOFT provence

Fabric softener for last rinse

100% European plantbased | Anti-static effect | Fresh lavender fragrance

SOFT provence is composed of 100% European plant-based surfactants, enhancing environmental responsibility, while making the linen silky and soft. Thanks to its formula full of cationic agents, SOFT provence allows to remove static electricity on linen while enabling a quick and easy ironing and leaving the laundry velvety soft. SOFT provence has a fresh lavender perfume that will last on linen.
