Professional

Werner & Mertz
Professional

Pioneer for more than 150 years: Werner & Mertz Professional – A company with a vision

For more than 150 years, the family-owned Werner & Mertz has been successful in the market as an umbrella brand and European forerunner in innovations for the cleaning industry. In 1971 Tana-Chemie was set up with offerings tailored to professional cleaning services. Our established brands Green Care Professional and

Tana Professional, supported by highly qualified and motivated employees, stand for the entire company's unwavering commitment to sustainability. We are driven by our desire to make a sustainable lifestyle attainable for the majority even beyond the boundaries of our brand.

1971

Founding of
Tana-Chemie GmbH

1989

Launch of
Green Care brand

2003

EMAS-certified production
site in Mainz, Germany. Followed
by Hallein, Austria in 2005.

2005

First EU Ecolabel
certification

2007

First Nordic Swan
certification

Better across the industry:

Wherever people come together,
our cleaning products are put to use.

Together we are on the way to becoming the European market and innovation leader in professional specialized care. In our sector we will succeed with exemplary ecological products and concepts designed and developed for the circular economy. Based on our many years of experience, we provide our customers with comprehensive, customized and integrally sustainable hygiene solutions that contribute to their success.

Some of our major sectors:

- Offices and commercial space
- Healthcare facilities
- Hotels, cafés and restaurants
- Transportation and traffic
- Public institutions
- Industry

Strong brands

Our two pioneer brands Green Care Professional and Tana Professional have their origin in the sustainability philosophy of our company. Linking tradition with innovation, they set standards in cleaning performance, economic efficiency and user safety. Read more about our strong brands on pages 10 and 11.

2007

Revision of development guidelines and publication of the sustainability information for each product

2008

First bottle with 30% share of recycle

2013

First Cradle-to-Cradle® Gold certification for a complete range of cleaning products

2014

First bottle of 100% recycle

Our unequivocal

stance is the basis for value creation

1 Responsibility

We keep our promises and accept our responsibility for others in the belief that a healthy and safe environment begins with ourselves.

2 Quality

By providing first-class products and solutions, we contribute to our customers' current and future business success.

3 Passion

We put our heart and soul into promoting diversity and ensuring good quality of life.

4 Integrity and Respect

In keeping with our corporate principles, we comply with the highest ethical standards in all we do and stand for honesty, integrity and fairness in dealing with employees, business partners, customers and the general public.

2018

Release of the Green Care Performance Calculator

Tana-Chemie GmbH
Werner & Mertz Group

2022

Our Company wins EcoVadis Platinum Medal for the second time

2015

Cradle-to-Cradle®
Products Innovator Award

2021

50 years of
Tana-Chemie GmbH

Professional Cleaning

First the facts

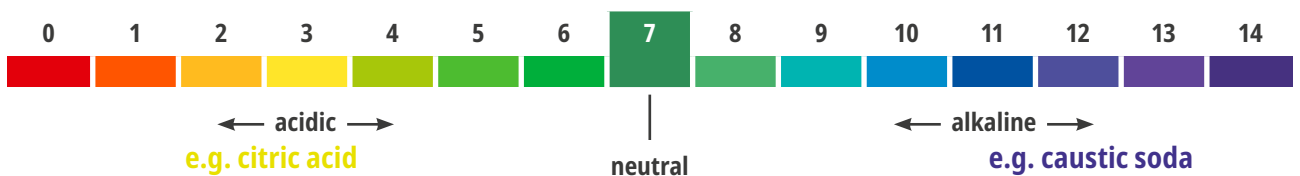

pH Value

The pH value, which specifies the degree of aggressiveness of acids or alkalis, is an important indicator of the material compatibility of the cleaning agent and its cleaning properties.

pH value < 7 (acidic): inorganic or mineral soiling, e.g., limestone or pigments

pH value = 7 (neutral): all-purpose, neutral cleaner with help from surfactants or emulsifiers

pH value > 7 (alkaline): organic soiling, e.g., grease or protein

Color System

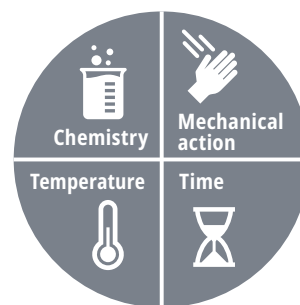

Our color coding system shows the proper usage area for cleaning agents and adheres to requirements for professional cleaning:

- Sanitary area (e.g., SANET)
- Surfaces (e.g., TANET & TANEX)
- Floor cleaning (e.g., TAWIP)

Sinner's Circle

According to Sinner, a wash and cleaning process involves four interdependent cleaning factors whose respective sizes can be altered.

2023

Our innovative Switch System with the award winning mono-material refill pouch

2024

Our Company earns top score again in latest EcoVadis Rating

2025

Production of more than 1 billion bottles made from post-consumer recyclate and new top score in EcoVadis rating

Scan the QR code to visit our EcoVadis recognition page:

Green Care Professional:

Our sustainable pioneer brand

Doing the right things right

Safe, effective, circular. Our Green Care Professional brand stands for high-quality cleaning products in harmony with nature. We have many ways to interpret “cleanliness”, i.e., as the effect of cleaning, but also clean for people, animals and the environment. From this basic understanding we developed our “circular” strategy. The materials used in the production of our Cradle-to-Cradle® certified assortment can be returned to the technical and biological cycles. From that we derived our slogan “A circular future”.

Our Brand Promise:

Safe for Humans and the Environment

For more than 30 years the Green Care brand has been synonymous with first-class cleaning performance and integrally sustainable cleaning concepts. Our brand is a pioneer in a genuine circular economy along the entire value chain.

In the next chapter you can read more about the circular economy and our Green Care Professional portfolio.

Tana Professional:

Our problem solver for every purpose

General problem solver in the cleaning sector

Tana Professional has a long history of documented customer satisfaction and high quality products. For more than 50 years, Tana has been our proven cleaning brand. For special cleaning and care products or disinfectants, the problem solver Tana Professional meets the needs of every sector and industry and ensures long-term value retention.

Three steps to greater safety in everyday work

Guaranteeing trouble-free hygiene is more important than ever in public areas, offices, retail and commercial space, hotels and restaurants. With Tana Professional, we offer you perfect protection for every area.

- 1 | Regular cleaning reduces bacterial loads.
- 2 | Surface disinfectants are recommended for heavily used surfaces.
- 3 | Hand hygiene and supplemental hand disinfection for personal protection.

Targeted solutions for every requirement

Ready4U

Speed

Our spray bottles for safe and fast application without measuring. More on page 13.

Concentrate + Dosing

Price / performance ratio

High-performance concentrate and simple dosing options. More on page 13.

Switch

Reduce + Reuse + Recycle

Ultra-concentrated formulations in bottle with dosing cap and refill pouch. More on page 14.

Kliks

Mobility

Precise dosing, suitable for mobile use, clever packaging design. More on page 18.

Ready for Action

Our ready-to-use cleaner

Ready4U

Our spray bottles make application very easy:

- Your cleaning personnel don't need any training before use
- Safe and fast application without measuring
- Sustainable formulas and bottles made of 100% recyclate
- Outstanding cleaning performance for use in sanitary areas, kitchen, laundry, for all-purpose and glass cleaning

Highly Concentrated

Price/performance ratio

Concentrate
+ Dosing

The Classic: Our Concentrate

- Extensive high-performance product range
- With the refill system from canister to bottle, you save money and reduce packaging waste

+ simple dosing options

- Manual dosing aid (more in Accessories chapter)
- Dosing system
- Green Care Remote, our cloud-based dosing system

Green Care Remote

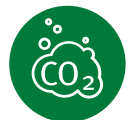

It's time to **Switch**

Small lever, big leverage

The innovative Switch System combines efficient, exact dosing without extra equipment with the advantages of sustainable, economical refilling. Available for four different areas of application, the ultra-concentrated formulations satisfy the highest sustainability requirements. An use of 10,000 liters of cleaning agents has the potential to avoid significant amounts of CO₂ emissions, crude oil and plastic consumption.*

Werner & Mertz Professional has been honored with the prestigious Green Packaging Star Award for its innovative dosing and refill solution, Switch. This award, presented for the 17th time on September 24, 2025, recognizes packaging concepts that protect both the product and the environment.

-9,291 kg
CO₂ emissions

-2,959 kg
Crude oil

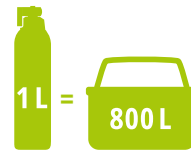

-1,669 kg
Plastic

Save twice:

Costs & CO₂ emissions

Integrated dosing cap

- Efficient cleaning processes
- Savings on dosing equipment
- Safe handling of ultra concentrates
- Overdose prevention

Ultra concentrate

- Savings from lower use of cleaning agent and less storage space
- Reduced resource consumption
- Performance assurance certified by EU Ecolabel
- Cradle-to-Cradle® certified

Simple instruction with a video

Refill pouch

- Cost-effective refilling
- The pouch (without labels) can be 100% recycled to a high quality.
- No use of barrier materials and adhesives
- Printed area is separate from the pouch itself and fused to it only at the edges
- The pouch, spout and printed sleeve are made of a monomaterial (polyethylene or PE).

Safety with a Kliks

Simple, intuitive, efficient

Our compact Kliks cleaning systems make your daily cleaning more efficient and environmentally friendly than ever before!

It works so simply:

- 1 | Select the right Kliks product, depending on area of application.
- 2 | Connect the product to the dosing system with the connector that has no contact to chemicals.
- 3 | Work efficiently with the ideal dosage.
- 4 | The pouch, which saves up to 90% waste volume, can be emptied completely.

Six times better: Your benefits

-  Connect without touching concentrate
-  100% biologically degradable formulas
-  Intuitive and safe use
-  Controlled dosing and efficiency
-  Economical
-  Reduces waste

ENERGY proKliks and
ENERGY topKliks

Efficient use in professional cleaning

Kliks-Systems for laundry, kitchen and building

Configure Kliks to satisfy your requirements and then use our innovative cleaning product packaging. Specially developed for your needs.

Convenient solution for laundry and dishwashing: Bag-in-Box

The practical box for laundry and dishwashing makes professional cleaning easier and prevents direct contact with the concentrated products.

Ideal for kitchen and building care: Kliks Pouch

Simplify professional cleaning in the kitchen and buildings. Our practical 2-liter pouch with high-performance cleaning concentrate is designed for use in the Kliks-System.

Laundry Hygiene

Mechanical dishwashing

Building Care

Manual dishwashing

**QUICK
& EASY**

More Efficiency with Ease

Quick & Easy – Load cartridge and “foam spray”

Our innovative system offers a unique concept for efficient and ergonomic cleaning with exact dosing, mobile use and clever packaging design. The varied and easily switched cartridges in the Quick & Easy

system make your work simple and efficient. Thanks to certified products with bottles made of recyclelate (Cradle to Cradle® & EU Ecolabel), you do your part in protecting the environment.

Improve your productivity:

**1 cartridge of
SANET daily Quick & Easy**

**... cleans more than
1,130 sinks.**

Foam Sprayhead

- Water and concentrate are mixed right in the spray head
- Prevents aerosol in the air
- Better adhesion on surfaces to be cleaned
- Free basic equipment of foam spray heads

Dosing with ease

- Integrated exact dosing reduces application costs
- Optimum cleaning performance is guaranteed
- Automatic lock when water or concentrate cartridge is empty
- Immediate display when refill is needed

Water cartridge

- Mobile – can be refilled with water anywhere
- Reduces carrying weight and saves steps
- Cartridges made of 100% recycle

Belt

- All cleaning equipment immediately available
- Eliminates unnecessary steps

Safety closure

- No-leak cartridge
- No contact with concentrate
- Change cartridge very easily
- Maximum user safety

Highly concentrated

- Can be used almost anywhere
- Certified formulas

Packaging meets bronze level requirements.

Exchangeable cartridges

- Fast and efficient
- Never again germ-laden liquids
- Complete emptying
- Cartridges made of 100% recycle

Extensive Service

Based on unique expertise

Our passion for cleanliness and our decades of experience in the cleaning industry make us the perfect contact for all your issues. With us you

benefit from efficient and innovative products and a complete service portfolio too. Here is an overview of our main services:

Our Service Portfolio:
For your satisfaction and efficiency

1 | Top advice

Our qualified advisors closely examine your cleaning services and help you to optimize them.

- Object files contain detailed information about your object, processes and the products you use.
- Usage technicians advise you on site.

2 | Customized concepts

When you need recommendations, cleaning or outbreak plans, we use our expertise to optimize your offers and solve your application problems.

3 Competitive Advantage

Sustainability is becoming more important for society and businesses. Only those companies that can credibly convey their sustainability efforts will realize a competitive advantage. We'll help you to do just that!

- Performance Calculator to figure out potential improvement to your ecological footprint
- Certificate that proves your resource conservation with our products

4 Special Know-how

We'll be happy to bring you and / or your employees up to date in the cleaning industry.

- Training programs in our Green Care Academy. Read about them on the next page.
- Current information from our newsletter "Tana informs"

5 Technical Support

Do you have problems or questions about handling our products?

- We'll provide dosing systems at no cost via a leasing agreement
- Emergency service if dosing system fails or malfunctions

Service info.

We would be pleased to give you information about our services or concrete details on our separate services: info@tana.de

6 Hygiene Assistance

We offer extensive services to set up and maintain first-class Hygiene standards.

- On-site consulting by trained disinfection specialists
- Examination and documentation in Hygiene audits
- Microbiological testing

ACADEMY

Trained sustainably

Master the job with specialist knowledge

In the Green Care Academy we offer you support with product training. In three different ways we ensure that your employees work safely and efficiently. Your employees remain qualified, motivated and always up-to-date.

You'll find more information about our new eLearning platform, online reservations and contact options (for questions or registration) at www.green-care-academy.com

Live Training

with personal service

In our live training you will be personally looked after by Tana-Chemie employees who have years of practical experience. We offer half and full day seminars on a variety of currently relevant subjects. Company-specific seminars conducted at your site are available upon request.

Web Seminars

Location-independent instruction with trainer

In our Green Care Academy Web Seminars your employees can take part in courses no matter where they are. Active participation is made possible via the Chat function. Choose from our varied topics in compulsory training and continuing education. Company-specific Web seminars are available upon request.

NEW

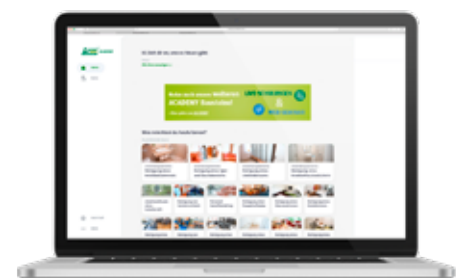

eLearning

our training platform. Flexible, practical, understandable

With this platform available anytime and anywhere, your employees can learn the course material without classroom training. Users have access to all content, which they can call up many times, and then check their knowledge by answering some questions. Videos of practical work make the material easy to understand.

Arguments in favor of the platform:

- We lay the foundation for your legal certainty by providing all relevant compulsory training.
- Documentation and checks of learning success
- Continuing education and practical know-how

Green Care Professional

Safe | Effective | Circular

“A credible eco product can come only from a company that consistently pursues sustainability in everything it does, guided by ecological awareness, economic foresight and social responsibility every single day.”

The one-way street must be history ...

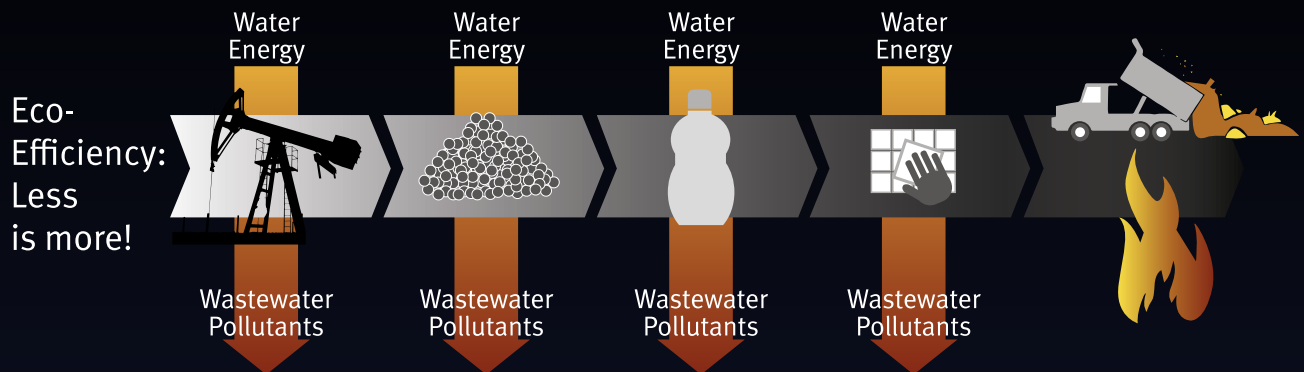

The lie of climate neutrality

**We cannot buy a way out of the climate crisis
with carbon offsets.**

Join us in creating honest
climate protection.
Read about the right way to go at:
www.circular-success.com

Cradle to Grave: The materials flow with no consideration given to long-term resource conservation from the source to the landfill

No consideration for long-term conservation of resources
"One-way design": Take – Make – Waste

Are we digging our own grave?

Rainforests on fire, plastic waste on land and sea, climate change and species extinction are some of the world's current problems. The scientific framework of planetary boundaries describes nine environmental systems that interact with each other and affect the stability of Earth. Six of the nine boundaries have already been crossed. How did this turning point come about? To answer that question, we have to look at the currently predominant economic system – the one-way street – that is leading us into a dead end.

Take – Make – Waste

The material flow design still used today for most products is referred to as "cradle to grave". Its focus is on the product's usage phase. "Cradle to Grave" ignores the origin and the ultimate fate of a product. The environmental impact during production is neglected too. Nevertheless, many companies have found a dubious way out of the dead end in the climate-damaging one-way street. Carbon offsetting gives them the chance to disguise the real environmental impact of their products.

All signs point to change

At Green Care Professional we are convinced that first and foremost, companies have to reduce their CO₂ emissions and communicate that clearly and comprehensibly. Buying a way out through carbon offsetting alone won't change a thing. The time has come to bring about the ecological transformation at an industrial level.

How can
we manage
the transformation
without giving up too much?

Simply turn the page.

... the future belongs to the circular economy

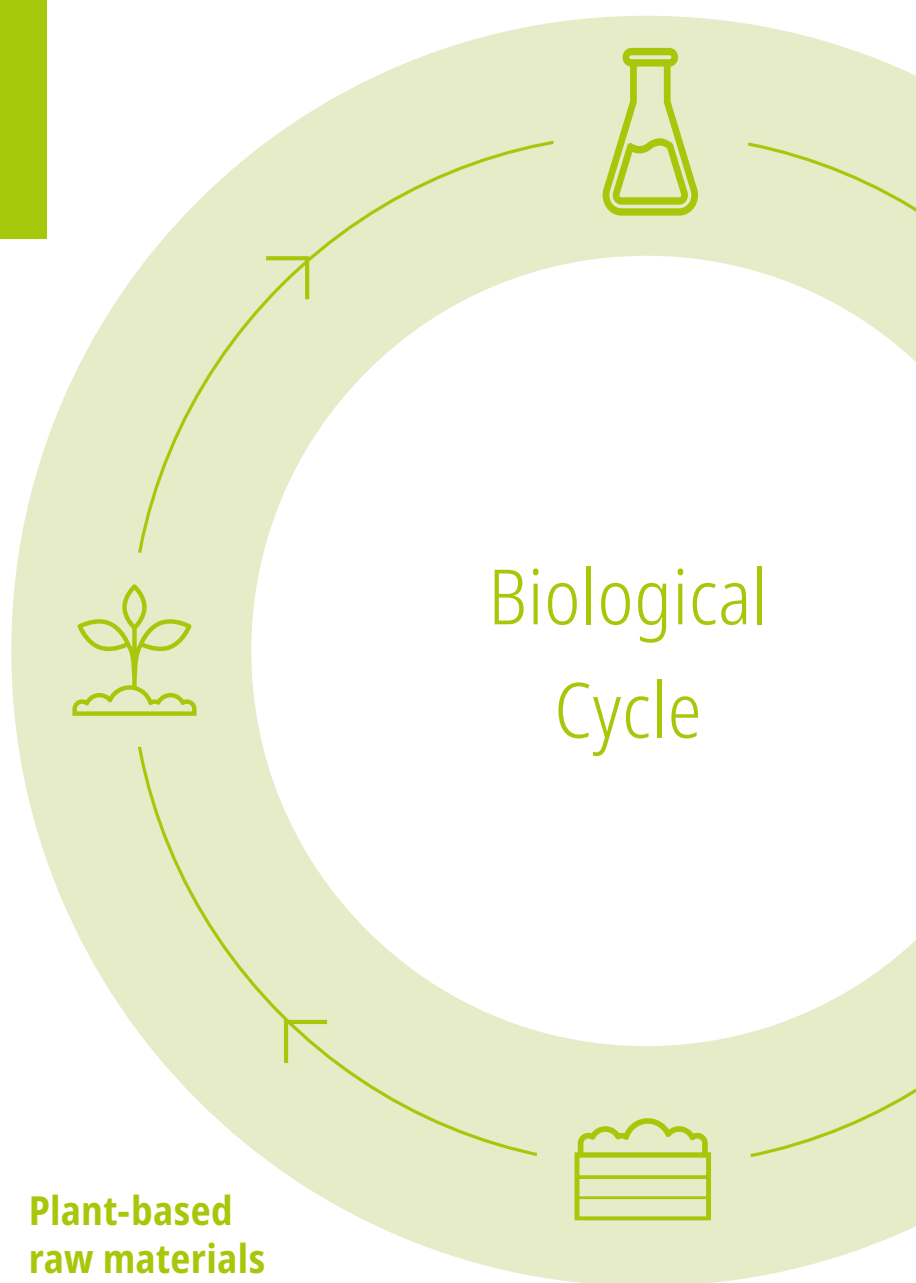

Sustainability has taken on a much bigger role. The one-dimensional Cradle to Grave principle, however, is still applied and supplemented merely by a reduction in the use of raw materials and resources. The issue: efficiency is improved, but no effectiveness is achieved.

No room for compromise in a true circular economy

In the circular economy according to the Cradle to Cradle® principle, how it is practised holistically with our Green Care Professional brand, the raw materials can be reused and pollutants are thus prevented from getting into the environment. The origin and fate of ingredients are kept in closed cycles, i.e., cleaning chemicals in the biological cycle and packaging in the technical cycle.

Formulations

Our sustainable formulations aim to reduce critical ingredients and allergens.

Plant-based raw materials

We use renewable raw materials based on plants.

Biodegradability

Our formulations are biodegradable according to OECD 302 B standard.

Packaging

Waste is a resource for us: 80% of our Green Care Professional bottles and 5L canisters are made from 100% recycled material and are fully recyclable.

Technical Cycle

Collecting

Through disposal via the municipal waste system, the empty packaging is returned to the recycling cycle.

Sorting & Recycling

The plastic is sorted according to plastic type and color. The sorted types of plastic are processed and turned into granules.

Our Products

Our development guidelines follow Nature's example

Our development guidelines, which form the basis for our entire Green Care portfolio, follow the Cradle to Cradle® Principle. Ever since our brand was established, we have worked at optimizing our technical and biological recycling in order to make our formulas and packaging even more sustainable.

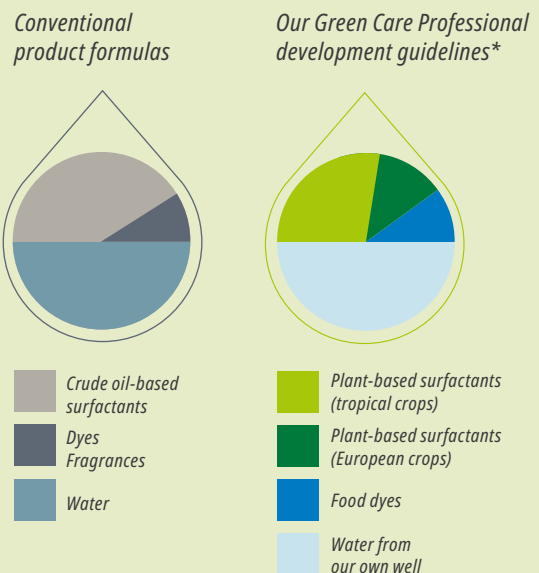

Green Care Professional – symbiosis of biology and technology:

- **Strong cleaning power**
- **Excellent price/performance ratio**
- **Safe for humans and Nature**

| Formulas

In development and production, we consistently use renewable energy technology and raw materials. We continuously reduce by-products, pollutants and residues in our formulas. We also pay attention to the biological degradability of materials and exclude raw materials with negative environmental impact in compliance with EU Ecolabel requirements.

Our formulations are developed with the goal of minimizing hazardous materials and reducing potential impact on people and the environment.

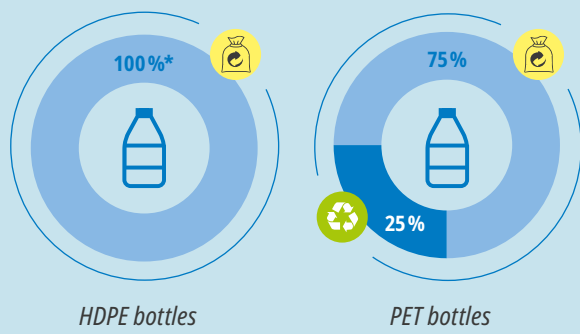

*We promote the use of plant-based surfactants of European origin in our formulations.

| Packaging

In order to do without virgin plastic made from crude oil and to conserve our fossil resources, we rely on recycle from the Yellow Bag. We refrain from using PS (polystyrene) and PVC for our packaging components.

The recycle share in our bottles is 100% and our bottles are completely recyclable. After their disposal, they can be returned safely to the material cycle.

In the long term we will use 100% recycle from the household waste collection "Yellow Bag" for our PET bottles. Until a complete switch is possible, we supplement the material with recycle obtained from deposit bottles.

-  Yellow Bag
Yellow Bin
-  PET deposit
bottle collection

*Exception: Dangerous goods packaging.

Our development guideline

Safe and fair for humans and the environment

The Green Care Professional development guidelines contribute to achieving several Sustainable Development Goals (SDGs) and support the European Green Deal.

Material health & ecology

With the Type 1 Ecolabel, Green Care Professional can verify that the exclusion of toxic ingredients makes its formulations harmless to human life and the environment. Only harmless fragrances and dyes are used in accordance with Ecolabel criteria. Animal-origin ingredients, PFAS and synthetic polymers to avoid microplastic are excluded from Green Care Professional formulations. The packaging does without phosphates and PVC. Our use of renewable energies, in-house production of electricity from wind and solar power and sustainable production in accordance with ISO 14001 and 50001 at our EMAS-certified European sites with in-house water treatment facilities distinguish us as sustainability pioneers.

Circularity

Formulation

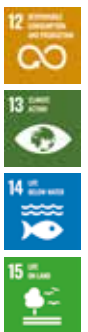

Origin: We use renewable plant-based raw materials instead of fossil sources and regenerative, degradable solvents with low limits. We promote the use of surfactants of European origin to support native species diversity.

Remaining: The goal is the reduction of by-products, contamination and residue, plus rapid, high biological degradability of organic materials.

Packaging

Origin: Avoidance of fossil resources through the use of Post-Consumer Recyclate from household waste collections like the Yellow Bag in bottles and caps.

Remaining: Design for Recycling of packaging to allow mechanical recycling without loss of quality (upcycling).

Social fairness

Our suppliers' code of conduct for the entire value chain ensures integrity, honesty, respect for human dignity and responsible handling of our resources. Production takes place in Germany and Austria. We assume responsibility for our customers through the full declaration of all our ingredients and our own customer training in the safe and proper handling of cleaning agents.

Economy

Sustainable procurement with Green Care Professional is economical, thanks to low cost per use. Our products are less expensive than conventional cleaning agents although they are sustainable. The recyclable packaging saves money on disposal. Intelligent, efficient dosing technology and ultra-concentrated formulations increase our customers' economic efficiency. The broad range of CLP-free products also reduces personnel training expenses.

Performance

The combination of top cleaning performance and sustainability does not require doing without anything found in conventional cleaning agents. Within the scope of Ecolabel certification, performance has been verified by marketing testing or performance checks by external testing institutions. Our intelligent dosing systems strengthen the efficient use of our cleaning products.

Outstanding Work for the Environment

Certificates: Proof of our progress

Our Green Care Professional portfolio offers a broad assortment of certified products. For all areas of application we have products that have earned at least one certification. This fact distinguishes us from other manufacturers and makes clear that genuine sustainability has to be practiced in the entire company if it is to be credible. We are a pioneer in the industry with the most Cradle to Cradle® certified products and are proud that we have proof of the recyclability of our formulas and our packaging.

At our production sites in Mainz and Hallein, we implement the highest quality and environmental standards and see them reflected in our certifications.

Can I count on you?

My future is calculable!

Preserve the green soul of our earth today for tomorrow with the Green Care Performance Calculator.

Companies are increasingly focused on reducing their ecological footprints. With our Green Care Performance Calculator, you can now track your resource savings, the share of certified products, and - new for the first time - the proportion of your packaging made from post-consumer recycle (PCR).

Benefits across all application areas

Our Green Care Performance Calculator shows how much you have reduced your environmental impact in every area of application. Clients can leverage these certified results in tenders, proposals, and as credible, positive PR for sustainability reporting.

 **Less carbon dioxide (CO₂)**

 **Less crude oil**

 **Less plastic**

 **PCR (container)**

 **PCR (total packaging)**

Certified calculation method:

"We confirm that the savings in crude oil and carbon emissions determined by the Performance Calculator were correctly calculated for both the packaging components and the detergent formulations of all Green Care Professional products."

Commitment leads to Change

Acting out of conviction

“Together we are strong” – if we pursue our goals as one, we achieve more. That's why we work in many instances with initiatives, companies and cooperation

partners who pursue the same goals as ours. We all want to protect our environment, promote sustainable production and advance the circular economy in society.

Our Success: The Recyclate Initiative

Microplastic in the oceans is a devastating consequence of the way we handle the flood of waste. The United Nations Environment Programme, the World Economic Forum and international bodies like the Ellen MacArthur Foundation see the solution to the problem in a closed circular economy for plastic. We do too! The Recyclate Initiative is an important step toward this goal.

Werner & Mertz sets a world record: one billion bottles of 100 percent Post-Consumer Recyclate!

We set a new world record on 23 June 2025. Since the start of its Recyclate Initiative, we have brought one billion rPET bottles of 100 percent Post-Consumer Recyclate to the market.

wir-fuer-recyclat.com

Green Key: The Key to Sustainable Accommodations

Hotels, youth hostels, campgrounds and all other types of accommodation require an enormous amount of electricity, water and cleaning products to handle the high number of guests. A minor change in the direction to sustainability can have many positive effects.

Green Key International certifies accommodations that use sustainable business practices. We provide Green Key with our practical Performance Calculator so organization can convince even more companies to think and act sustainably.

Working Together for Sustainability: Our customer success stories

While others only talk about sustainability, we have consistently put it into practice with our customers. With our ecological and recyclable cleaning solutions,

we have already eliminated several tons of plastic, crude oil and CO₂ emissions. You too can become a sustainability role model!

Ghent: shines in heroic splendor!

In recent years Ghent, the second largest city in Flanders, has worked steadily to make its municipal cleaning services sustainable and that includes the use of integrally sustainable cleaning products. Ghent purchases products that satisfy the EU Ecolabel criteria and was the first city to introduce Cradle-to-Cradle® certified products for the cleaning of its buildings and facilities.

Mont-Saint-Michel: Preserve the UNESCO World Heritage Site!

The two Groupe Gaulois hotels clean with Green Care Professional, making them sustainability role models. It sees the use of our eco-certified cleaning products as added value, which can be effectively communicated to the target groups.

You can find more success stories on our Green Care Professional website.

SANET

SANET perfect

Sanitary cleaner and descaler

Outstanding performance | Special acid-surfactant combination | Cost-efficient

SANET perfect is a highly-effective, ecological cleaner and descaling agent for sanitary areas. With its special combination of acids and surfactants, SANET perfect effectively and gently removes limescale, grease, soap scum with its first use and thus proves its economic efficiency. Low foaming action; suitable for use with floor scrubbers.

712482 – 1 L BOTTLE | 712483 – 5 L CANISTER

SANET perfect zero%

Sanitary cleaner and descaler

No fragrance or dye | User safety | Outstanding performance

Powerful performance, user safety, low impact on indoor air quality. Effective, ecological sanitary area cleaner and descaler without dye or perfume. With a special acid and surfactant formula, SANET perfect zero% effectively and gently removes limescale, grease and soap scum with the first application and thus increases economic efficiency too. Because the descaler contains no dye or perfume, it is ideal for use in commercial kitchens.

Always read the label and product information before use.

714815 – 750 ml SPRAY BOTTLE

Healthy indoor air: Breathing healthy is essential!

The design of airtight buildings promotes sustainable, energy-efficient construction, but also requires the right choice of emission-tested cleaning products so that any negative effects on the indoor air are minimized. The independent Air Label delivers reliable results on the pollutant emissions emitted into the air by the product under normal conditions of use.

Green Care Professional is the first brand of professional cleaners to benefit from the A+ Controlled Indoor Air label for professional use.

Why good air quality is so important:

We spend 80 to 90% of our lives in closed rooms.

On average 20,000 breaths per day.

Toilet Cleaners

WC lemon

Toilet bowl cleaner lemon

Adheres well to surface | Citric acid strength | Safe use

WC lemon is an acidic toilet bowl cleaner that effectively uses the natural strength of citric acid. High viscosity formula delivers outstanding cleaning performance. Effectively removes common soiling from urinals and toilet bowls. Special bottle with angled spout guarantees fast, targeted, simple and safe application.

712510 – 750 ml ANGLED NECK BOTTLE

WC mint

Toilet bowl cleaner mint

Viscous | Easy-to-use | Safe use

WC mint is an acidic toilet bowl cleaner that uses the natural strength of citric acid. Effectively removes all normal soiling in urinals and toilet bowls. Leaves behind a lasting and fresh scent of mint. The special angled spout ensures fast, targeted, simple and same application.

713789 – 750 ml ANGLED NECK BOTTLE

WC natural

Toilet bowl cleaner vinegar

Adheres well to surface | Natural strength of acetic acid | Safe use

WC natural is an acidic toilet bowl cleaner that effectively uses the natural strength of acetic acid made from wood remnants. Impressive cleaning performance from viscous formula. Effectively removes common soiling from urinals and toilet bowls. Special bottle with angled spout guarantees fast, targeted, simple and safe application.

712512 – 750 ml ANGLED NECK BOTTLE

WC liquid

Toilet bowl cleaner with ocean-fresh fragrance

Safe application | Easy-to-use | Viscous

Eliminates all deposits and soiling in toilet bowls and urinals. Prevents unpleasant odors from developing. Works on hard-to-reach places too. For us in all toilets, urinals and bidets. Special angled spout guarantees fast, targeted, simple and safe use.

715810 – 750 ml ANGLED NECK BOTTLE

WC daily zero%

Toilet cleaner

Viscous consistency | Easy-to-use | Safe application

WC daily F is an acid toilet bowl cleaner that uses the power of natural citric acid. The high viscosity cleaner contains no colour or perfume and effectively removes all normal residue and discoloration from urinals and toilet bowls. The special bottle with angled spout guarantees fast, targeted, simple and safe application.

Disinfecting Cleaners

APESIN AP 100 oxy

Powder concentrate for surface disinfection

Listed VAH/RKI (A/B) | Broad efficacy spectrum | Material compatibility

APESIN AP 100 oxy is a highly effective powder concentrate that offers an excellent spectrum of activity for disinfecting and cleaning all types of surfaces in healthcare facilities, in industrial & institutional areas and in food areas. The product is on the RKI AB list and is suitable both for surface wipe disinfection where there are increased efficacy requirements in routine use and for disinfection in the event of an epidemic. Due to the active ingredient peracetic acid generated in the mildly alkaline application solution, the product offers a comprehensive spectrum of activity, excellent material compatibility (even suitable for disinfecting sensitive materials such as Plexiglas®) and good cleaning performance. The efficacy of APESIN AP 100 oxy is guaranteed even with high organic loads and dried blood loads can be removed effortlessly and safely. APESIN AP 100 oxy is fragrance-free and low-odor and is suitable for all areas where maximum efficacy, exceptional user safety and good cleaning performance are required. Use biocidal products with caution. Always read the label and product information before use.

APESIN rapid plus

Liquid fast-acting Surface disinfectant cleaner

Broad activity | Versatile | 2-in-1

APESIN rapid plus is a liquid fast-acting surface disinfectant cleaner for entire institutional, medical and food-processing areas. With a broad activity against bacteria, yeast, fungi and viruses. For simultaneous disinfecting and cleaning of washable surfaces and items. APESIN rapid plus is free of fragrances. The short contact times enable efficient work processes. Surface disinfection possible even at 4 °C. Use biocidal products with caution. Always read the label and product information.

716033 – 2 L DOSING BOTTLE | 716035 – 5 L CANISTER

APESIN effect

Liquid Surface disinfectant cleaner

Broad activity | Versatile | 2-in-1

APESIN effect is a liquid surface disinfectant cleaner for entire institutional, medical and food-processing areas. With a broad activity against bacteria, yeast, fungi and viruses. For simultaneous disinfecting and cleaning of washable surfaces and items. APESIN effect is free of fragrances. The short contact times of APESIN effect result in a higher yield and enable efficient work processes. Full performance tested with high dirt exposure. Use biocidal products with caution. Always read the label and product information.

716032 – 10 L CANISTER

APESIN spray F

Alcohol-based rapid disinfection, liquid – perfume-free

Fast-acting | Free of dyes and perfume | Listed by IHO / VAH

Fast-acting disinfectant against bacteria, yeasts and viruses (limited spectrum). Can be used on all alcohol-resistant surfaces and furniture in healthcare facilities, in industrial and institutional areas and in food areas. Can be used undiluted. No rinsing is required. Listed by VAH (Association for Applied Hygiene), included in the IHO list of disinfectants for food Hygiene. Use biocidal products with caution. Always read the label and product information before use.

750 ml SPRAY BOTTLE: **714867** (DE/RO/HU), **714929** (FR/ESP/GR), **716672** (BENELUX/FR/DE/NL), **716671** (IT/DK/SE) | 5 L CANISTER: **716058**

APESIN multi QUICK&EASY

Foaming disinfectant multi-purpose cleaner

Versatile and safe | Highly efficient | Listed by IHO / VAH

Versatile surface disinfectant cleaner with broad usage spectrum against bacteria, viruses and yeasts in public institutions, healthcare, recreation areas, nursing homes and medical practices. Contains no dyes or fragrances. Safe and effective use with the Quick&Easy System. Use biocidal products with caution. Always read the label and product information before use.

714319 – 325 ml CARTRIDGE

APESIN multispray

Desinfecting Cleaner, liquid – perfume-free

Broad biocidal activity | Versatile | 2-in-1

APESIN multispray is a liquid disinfecting cleaner spray without perfume, with broad microbial activity spectrum for disinfection of multiple surfaces in kitchens and food processing areas (PT4), as well as industrial & institutional and medical areas (PT2). APESIN multispray is rapidly active against bacteria, yeast, fungi and viruses. APESIN multispray dissolves fat and protein soils as well as microbial contaminations in one step for optimized sanitation procedures. Use biocidal products with caution. Always read the label and product information.

716037 – 750 ml SPRAY BOTTLE

APESIN combi DR

Liquid all-purpose disinfection cleaner

All-purpose use | Time and money-saving

Surface disinfectant especially for the cleaning and disinfecting of food processing areas and healthcare facilities, including hospitals. VAH-listed (Association for Applied Hygiene). The fragrance-free disinfectant works at low concentrations. Listed in the IHO list for Food Hygiene. Biocidal products are to be used with caution. Always read the label and product information carefully before use.

Biotechnological cleaners

BIOBACT clean

Biotechnological all-purpose cleaner

Cleaning efficiency | Long-lasting cleanliness | Material friendly

Biotechnological cleaner for all waterproof surfaces. Long-lasting elimination of offensive odors; leaves behind a pleasant scent. Regular use prevents new formation of organic contaminants. BIOBACT clean helps to reduce offensive smells in industrial operations, especially in areas who watery solutions are disposed of via the wastewater system.

716817 – 1 L BOTTLE

DE/020/385

BIOBACT scent

Biotechnological odour eliminator

Effective odor control | Long-lasting cleanliness | Material friendly

Biotechnological odor eliminator for all waterproof surfaces and fabrics. Long-lasting elimination of offensive odors; leaves behind a pleasant scent. Varied uses in sanitary facilities, drains, trash containers and the like. No hazard labels required.

716814 – 500 ml SPRAY BOTTLE | 716813 – 1 L BOTTLE

BIOBACT power

Powerful biotechnological all-purpose cleaner

Powerful cleaning | Odor elimination | Long lasting perfume

BIOBACT power is a powerful, mildly alkaline cleaner with biotechnological odour removal. Double action: simple and deep cleaning of all floors and surfaces in just one step. The probiotic ingredients reach dirt even in hard-to-reach places. This removes unpleasant odours for the long term. Self-active cleaning even after use thanks to the use of microorganisms.

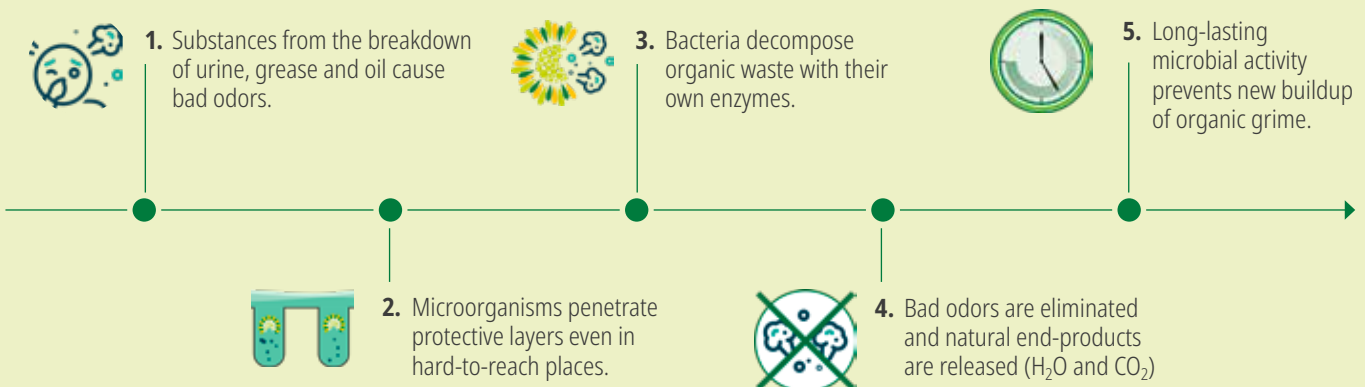

716825 – 1 L BOTTLE

TAWIP

TAWIP vio SWITCH

Ultra concentrated floor cleaner and -care

Exact dosing | Safe application | Reduce, Reuse, Recycle

The natural coconut fat soap in the formula protects floors from leaching effects. Leaves a protective film with antistatic effect, reducing the danger of slipping in compliance with DIN 18032-2. Ideally suitable for mechanical and manual maintenance cleaning of all water-resistant floors in objects demanding highest floor care and slip resistance. Ultra-concentrated and EU Ecolabel certified formulation.

716156 – 1 L BOTTLE* | **716233** – 1 L POUCH**

TAWIP vioclean

Floor cleaner and -care

Natural soap basis | High slip resistance | Cost-efficient

Soap-based floor cleaner and care product with exceptional environmental properties. For use with automatic floor scrubbers or for manual application. With natural coconut oil soap to protect floors from leaching effects. Tested slip resistance in compliance with DIN 18032-2. Effective even in low concentrations.

712484 – 1 L BOTTLE | **712485** – 5 L CANISTER

TAWIP vioclean zero%

Floor cleaner and -care

Increased user safety | High slip-resistance | Perfume & dye free

Soap-based floor clean and care product, contains no dyes or fragrances, with exceptional environmental characteristics. Suitable for use with automatic floor scrubbers. Natural coconut oil soap protects floors from leaching effects. Leaves a silky shiny protective film with anti-static effect and tested slip resistance in compliance with DIN 18032-2. Effective even at low concentrations. Made mostly of renewable resources, TAWIP vioclean zero% contributes to the well-being of future generations.

717139 – 1 L BOTTLE

TAWIP neo

Wipe care based on biopolymers

Care & cleaning | Water-soluble biopolymers | DIN 18032-2 certified

TAWIP neo is based on innovative water-soluble biopolymers of European origin. The extremely low-foam formula leaves behind an even, silky-gloss finish with outstanding coverage and a pleasant room fragrance. TAWIP neo does not contain any waxes. It therefore guarantees a uniform appearance and prevents unwanted layer build-up and smear marks..

717137 – 1 L BOTTLE | **717146** – 5 L CANISTER

TAWIP innomat

Auto scrubber cleaner

High performance | Anti-static | Slip-resistant

Large area cleaner for floor scrubbers with high cleaning performance event at high-speed scrubber settings. Extremely economical, thanks to its high soil-suspension capacity. Special care components protect the floor from leaching and prevent static electricity. In compliance with slip-resistance criteria in DIN 18032-2. Suitable for all water-resistant flooring.

712633 – 5 L CANISTER* | 406116 – 10 L CANISTER

TAWIP original

Polymer based wipe care

Care & cleaning | Reduces re-soiling | DIN 18032-2

Maintenance cleaner based on water-soluble polymers for all waterproof floors. Quick and easy use. Stripping and simultaneous formation of a shiny protective film with outstanding slip resistance (tested, in compliance with DIN 18032-2). No buildup of layers. Makes stripping of uncoated floors unnecessary.

713341 – 1 L BOTTLE* | 404773 – 10 L CANISTER

TAWIP original C

Polymer based wipe care – concentrated

Refillable | Concentrated | Prevents re-soiling

Highly concentrated maintenance cleaner based on water-soluble polymers for all waterproof floors. Refillable dosing bottle. Easy and accurate dosing for economical use; saves space and transport expense. Fast and simple use. Thorough cleaning with simultaneous application of a protective glossy finish with outstanding slip resistance (DIN 18032-2). No buildup of layers, makes stripping of uncoated floors unnecessary.

LONGLIFE

Emulsions and Primers

LONGLIFE complete

Ultra-performance floor polish

Completely economical | Completely safe | Completely flexible

High-performance dispersion system with outstanding features. Extremely resistant and durable, thanks to specially developed combination of high-performance polymers. Highly resistant to alcohol and disinfectants. Environmentally compatible formula awarded the Austrian environmental seal. User-friendly; works best in system with LINAX complete. Tested slip resistance in conformance with DIN 18032-2.

712513 – 5 L CANISTER

LONGLIFE matt

High-performance matt floor polish

Resistant | Matte appearance | Increased safety

Provides alcohol and surface disinfectant resistance with a matte look for ideal floor care in healthcare facilities. Resilient, highly elastic protective film that adheres well to all types of flooring, including damp linoleum. Slip resistance tested against DIN 18032-2 criteria. Certified, with Austrian environmental seal.

714289 – 5 L CANISTER

LONGLIFE polish

High-gloss floor polish

All-purpose | Safe use | Cost-efficient

Universal use of floor care dispersion without eco-toxic ingredients such as metal salt (zinc), TBEP, fluorosurfactants and fragrances. Adheres well to surfaces, polishes and restores protective film. LONGLIFE polish is a safe and durable floor polish. Tested slip resistance as per DIN 18032-2. Works best in the system with LINAX stripper. Certified, with Austrian environmental seal.

712514 – 5 L CANISTER

LONGLIFE hospital

Disinfectant – resistant emulsion polish

Disinfectant-resistant | Long-lasting | Easy Application

Dispersion with good resistance to alcohol-free disinfectants. Can be applied easily and quickly. Good leveling and low dirt absorption. Suitable for use on all waterproof floor coverings. Ideal for hospitals, healthcare facilities or nursing homes and wherever APESIN is used for cleaning.

716038 – 5 L CANISTER

LONGLIFE diamond

Long-lasting, high gloss emulsion polish

Good wear resistance | High gloss | Easy use

LONGLIFE diamond lays down a very glossy, smear-resistant and anti-slip protective film with excellent resistance to heel marks, tracks and soiling. Outstanding flow. High leveling capacity on absorbent flooring coverings. Especially economical; very little product is needed for one application.

716060 – 5 L CANISTER

LONGLIFE stone

Long-lasting, high-gloss emulsion polish

Long-lasting | High gloss | For stone flooring

Highly durable dispersion of all natural and artificial stone floors. Not suitable for use on glazed tiles, fine stoneware and high-gloss polished natural stone.

716062 – 5 L CANISTER

LONGLIFE B 250

Multipurpose emulsion polish

Protection | Care | Cleaning

The active cleaning ingredients in the special dispersion with a 3-in-1 function clean, maintain and protect floors in one use and put down an anti-slip, durable, slightly shiny protective film. Worn traffic patterns can be corrected easily. Suitable for use on all waterproof flooring, especially where slip resistance is required. Excellent for maintenance mopping

702656 – 10 L CANISTER

LONGLIFE sport

Emulsion polish for sport floorings

Slip-resistant | Highly elastic | Easy use

Special dispersion for care of all floors with special requirements for slip-resistance and safety, such as gyms and fitness centers. Tested and certified in compliance with DIN 18032-2.

702657 – 10 L CANISTER

LONGLIFE conductan

Emulsion polish for conductive floors

For conductive or dissipative floors | Disinfectant-resistant | Durable

Special dispersion for coating conductive and static dissipative floors. Leads to no insulating effect, but instead maintains the electrostatic leakage resistance inherent in the floor and gained through its installation. Developed in cooperation with well-known floor manufacturers. Care recommendations for specific flooring available upon request.

402207 – 10 L CANISTER

Wood Care

TIMBER lamitan

Impregnating cleaner for laminate and wooden floors

Waterproofing | Protective | Safe

Highly effective concentrated cleaner for waterproofing and maintenance cleaning of all water-sensitive floors such as wood, laminate and cork. Leaves behind an invisible protective film that does not affect the natural look of the floor and reduces re-soiling.

713338 – 1 L BOTTLE | **713339** – 5 L CANISTER

TIMBER natura

Impregnating care product for wooden floors

Impregnating | Protecting | Oil-effect

TIMBER natura is an economical solution that can be used with the standard tools of the contract cleaner and has been developed for the restoration of worn-out oiled wooden floorings. TIMBER natura emphasizes the natural character of the wood and leaves a fresh, natural, silky and high-quality look. As a safety aspect, it is slip-resistant and certified according to DIN 18032-2.

LINAX/QUICKSTRIP

Basic Cleaner

LINAX complete

Ultra-performance floor stripper

Extremely powerful | Fast-acting | No rinsing

Removes all types of polymer films. Ideally used in the system with LONGLIFE complete. Effectively removes stubborn floor polish films, including on over-treated floors. Can also be used on alkali-sensitive floors. Saves time and resources because rinsing and neutralizing are not required. Certified, with Austrian environmental seal.

712655 – 5 L CANISTER

LINAX stripper

Universal floor stripper

All-purpose | Safe use | Cost-efficient

Universal cleaner with exceptional environmental characteristics. Safe use, suitable on all alkali-sensitive floor coverings. Ideal when used in system with LONGLIFE polish; easily removes multiple layers of LONGLIFE polish polymer coatings. LINAX stripper works without eco-toxic ingredients (phosphates, EDTA, NATA, fragrances, dyes) and therefore has a low impact on indoor air quality. Certified, with Austrian environmental seal.

712515 – 5 L CANISTER

LINAX extreme

High performance universal floor stripper

For stubborn polymer layers | Fast-acting | Good material compatibility

Highly effective universal deep cleaner based on special solvents, even for hard-to-remove polymer layers. Extremely brief contact time. No rinsing required, simply mop up the product. Suitable for use on all waterproof floors.

716329 – 10 L CANISTER

LINAX plus

Universal stripper

Powerful | Versatile | Easy use

Reliably removes old, worn wax and polymer films. For universal use on all water-resistance floors in public buildings and industrial settings. Can be disposed of via a light liquid separator. No unpleasant odors during and after use. Also suitable for sensitive flooring such as linoleum and rubber.

716330 – 10 L CANISTER

LINAX amonia

Universal stripper

Powerful | Versatile | Easy use

Reliably removes old, worn wax and polymer films. High material resistance. Brief contact time. Best suited for sensitive flooring such as linoleum and rubber. Has a fresh scent.

404744 – 10 L CANISTER

QUICKSTRIP alka

Extra strong stripper for alkaline-resistant floor

High performance | Good degreasing | Suitable for oil water separator

Alkaline cleaner with sodium hydroxide base. Strong re-emulsifying. Highly effective even by removal of multi-layered protective films. Low foaming. Can be used on all alkali-resistant surfaces. Especially for deep cleaning of epoxy resin coatings. Ideal in metal-processing operations, removal of forklift abrasions. Can be used in floor scrubbers. Fast separating action in oil water separator.

404743 – 10 L CANISTER

QUICKSTRIP turbo

High effective stripper for alkaline-resistant floors

Extremely powerful | Time and money-saving | Works quickly

The high-performance general cleaner quickly and completely removes floor care product residue and crusty soiling. No unpleasant odors; a small amount of product goes a long way. Can be used on all alkali-resistant floorings.

404741 – 10 L CANISTER

FOAM-EX

Defoamer

For dirty water tanks | Anti-foaming | Varied uses

Prevents foam formation or destroys existing foam in the dirty water tank of extraction devices, water vacuums, floor scrubbers. Extremely economical use. Can be used to eliminate foam formation in the washing machine

713891 – 5 L CANISTER

Carpet Cleaner

TUBA spray-ex

Cleaner for spray extraction

Powerful | Low-foaming | Material friendly

Dissolves, emulsifies and removes even stubborn stains from carpeting. Low foaming action. Contains no optical brighteners. Can be used with spray extraction method on all moisture-resistant textiles of natural and synthetic fibers

404772 – 10 L CANISTER

TUBA shampoo

Carpet cleaner

Protects fibers | Revives colors | Impressive performance

Carpet shampooing provides thorough, deep cleaning of fibers. Refreshes carpet colors. Delays re-soiling. Pleasant, fresh scent. Can be used on all shampooable textile floor coverings of natural and synthetic fibers. Suitable for use with all shampooing machines.

404770 – 10 L CANISTER

TUBA universal

Cleaner for shampooing and spray extraction

Deep cleaning of fibers | Refreshes colors

Carpet cleaner for use with shampooing and spray extraction devices and floor pads. Very good dirt and grease-dissolving properties. Neutral pH in cleaning solution. Contains no optical brighteners or bleaching agents. Suitable for all natural and synthetic fibers. High material compatibility.

403279 – 10 L CANISTER

TUBA spot

Universal stain remover

Universal usage | Fast & simple | Material friendly

The time and money-saving spot remover quickly and effortlessly removes all solvent-soluble and water-soluble stains from carpets, upholstery, and natural and synthetic fabrics.

TANEX

All-purpose and Deep Cleaners

TANEX allround

4 in 1 power cleaner

Versatile | Excellent wetting properties | Powerful

TANEX allround is a high-wetting and slightly alkaline all-purpose deep cleaner for cleaning all waterproof floors and surfaces. The reliable 4-in-1 multi-talent works on heavily soiled surfaces as a maintenance or deep cleaner, final cleaner prior to hand-over or top stripper. Suitable for use with floor scrubbers.

713327 – 1 L BOTTLE | 713328 – 5 L CANISTER

TANEX AZ 70

All purpose cleaner

Degreasing | All-purpose use | Ammonia-enriched

All-purpose cleaner with outstanding emulsifying action on oil and grease. Pleasantly scented. Ideal for use on doors, glass and synthetic surfaces, ceramic tiles, varnished wood and metal furniture, etc.

712873 – 1 L BOTTLE* | 403961 – 10 L CANISTER | 712872 – 200 L BARREL

TANEX AZ 70 C

Concentrated all purpose cleaner

Degreasing | All-purpose use | Ammonia-enriched

Highly concentrated all-purpose cleaner with outstanding emulsifying action on oil and grease. Pleasantly scented. Refillable dosing bottle. Simple, accurate dosing; saves space and cuts costs for transport and usage. Ideal for use on doors, glass and synthetic surfaces, ceramic tiles, varnished wood and metal furniture, etc.

713071 – 2 L POUCH | 713115 – 2 L DOSING BOTTLE

TANEX cement-ex

Cement film remover

Thorough cleaning before hand-over | High-performance | Safe

Cement dust remover for acid-proof natural stone and stoneware. Deep cleaner for economical final cleaning prior to handover. Removes limescale residue and grout scrap that come from the laying of acid-proof stone flooring.

708722 – 10 L CANISTER

TANEX vivaceram

Powerful alkaline cleaner for ceramic tiles

Powerful | Alkaline | Fast-acting

Powerful alkaline cleaner specially developed for use on fine stoneware and ceramic tiles and other alkali-resistant surfaces. The product quickly penetrates the micropores in fine stoneware and removes even deep, stubborn soiling. With its good emulsifying properties, it eliminates even troublesome stains, stubborn crusting and greasy grime.

716075 – 1 L BOTTLE | **713855** – 5 L CANISTER

*ph-value at 1%

TANEX industry

Industrial floor cleaner

Powerful | Safe use | Material friendly

Powerful cleaner removes stubborn stains, oil, grease and rubber abrasion marks. Even when the product is in use for a long time, no unpleasant smells develop. Slightly foamy, surfaces are not made slick. Safe and simple use. Reduced re-soiling. Material-friendly without use of aggressive chemicals. Gentle care of sensitive metal parts, varnish and plastic.

403366 – 10 L CANISTER

TANEX primus

Intensive cleaner for construction clean-up

Alkaline deep cleaner | High performance | Pleasant scent

Powerful degreaser and cleaner for all types of dirt and grime encountered during final Building Care before handover. TANEX primus also can be used as an intense general cleaner for removal of stubborn dirt. TANEX primus has a pleasant fragrance that lingers after use.

404747 – 10 L CANISTER

TANEX gum-ex

Chewing gum remover

Powerful | Residue-free | Material friendly

Quickly removes old chewing gum, modeling clay or compound from all fabric, flexible and hard surfaces. Quick-freezing action on stains (e.g., gum) saves time and money. Immediately after product application, the residue can be removed completely and safely, without damaging the surface.

716599 – 400 ml CAN

TANEX trophy

Powerful cleaner for sports floorings

Powerful | Removes stains | Low foam

TANEX trophy is a specially formulated powerful detergent for the removal of specific stains on alkaline-resistant surfaces in gyms. It quickly and effectively removes resin residue and black marks. TANEX trophy preserves the shine and slip-resistant properties of sport flooring. Thanks to low foam formation, this product can be used in automatic floor scrubbers. It also can be sprayed directly on persistent stains. Leaves a pleasant minty scent.

712734 – 5 L CANISTER

Deep cleaners in Quick & Easy system, Ready-to-use deep cleaner

TANEX performa QUICK&EASY

Power cleaner

Powerful | Low residue | Economical

Part of the Quick & Easy portable dosing system, TANEX performa Quick&Easy combines outstanding performance with minimum effort and low usage costs. With no CLP-classified hazardous ingredients, the product ensures maximum user safety. Works quickly to remove stubborn stains of many different types. Low residue formation. Maintains the original appearance of the surface. Leaves behind a pleasant scent.

713672 – 325 ml CARTRIDGE

TANEX power

Ready-to-use plastic cleaner

Powerful | Efficient & economical | Varied uses

Ready-to-use power cleaner for synthetic surfaces with an excellent stain remover for many types of stubborn stains such as ink from inkpads or ballpoint pens and text markers, fingerprints, nicotine and cosmetics. Highly efficient, quick use.

APESIN AP 100 oxy

Powder concentrate for surface disinfection

Listed VAH/RKI (A/B) | Broad efficacy spectrum | Material compatibility

APESIN AP 100 oxy is a highly effective powder concentrate that offers an excellent spectrum of activity for disinfecting and cleaning all types of surfaces in healthcare facilities, in industrial & institutional areas and in food areas. The product is on the RKI AB list and is suitable both for surface wipe disinfection where there are increased efficacy requirements in routine use and for disinfection in the event of an epidemic. Due to the active ingredient peracetic acid generated in the mildly alkaline application solution, the product offers a comprehensive spectrum of activity, excellent material compatibility (even suitable for disinfecting sensitive materials such as Plexiglas®) and good cleaning performance. The efficacy of APESIN AP 100 oxy is guaranteed even with high organic loads and dried blood loads can be removed effortlessly and safely. APESIN AP 100 oxy is fragrance-free and low-odor and is suitable for all areas where maximum efficacy, exceptional user safety and good cleaning performance are required. Use biocidal products with caution. Always read the label and product information before use.

GREASE/GRILL

13

GREASE top SWITCH

AT/020/012

Ultra-concentrated multipurpose kitchen cleaner

Exact dosing | Safe application | Reduce, Reuse, Recycle

GREASE topSwitch can dissolve all kinds of stubborn dirt, is universally useable and does not leave smeary residues for uniform results. It is suitable for all waterproof floors, furnishings in food processing areas and can be used with a cleaning and high-pressure equipment.

716160 – 1 L BOTTLE* | **716233** – 1 L POUCH**

11

GREASE off QUICK&EASY

AT/020/012

Universal kitchen degreaser

Powerful | Easy use | Economical

High-performance kitchen cleaner; thanks to its special combination of surfactants, eliminates even stubborn incrustations in food processing areas. As part of the portable Quick & Easy dosing system, GREASE off Quick&Easy achieves outstanding results with low costs and reduced effort. With no CLP-classified hazardous ingredients, the product ensures maximum user safety. Generates stable, compact foam that adheres well to surfaces.

713684 – 325 ml CARTRIDGE

10

GREASE quick KLIKS

AT/020/012

High performance kitchen cleaner

Universal use | Easy to rinse off | Gentle to surfaces

High-performance universal kitchen cleaner dissolves all kinds of stubborn dirt and ensures uniform results. The ultra concentrated product with a clever dosing concept is easy to use, safe, space-saving and economical. Its orange scent makes using GREASE quick Kliks very pleasant to use.

714728 – 2 L POUCH

11

GREASE perfect

AT/020/012

Kitchen Degreaser

Fast & efficient | Flexible usage | Perfume-free

Quickly and effectively dissolves oil and greasy stains from all waterproof and alkaliresistant surfaces and floor covering. Guarantees excellent results when used on stubborn incrustations, especially on and near stoves and grills. Fragrance-free. Refillable spray bottle. Suitable for use on food processing surfaces.

712570 – 750 ml SPRAY BOTTLE | **716136** – 1 L BOTTLE
712574 – 5 L CANISTER | **717263** – 200 L BARREL

13

GREASE power

High performance kitchen degreaser

Fast-acting | Easy usage | Efficient

Quickly and easily removes grease from alkali-resistant surfaces without leaving residue behind. Because it can be used on a variety of surfaces and appliances, only one product is required. Very good also on stubborn incrustations, particularly in ovens and grills.

750 ml SPRAY BOTTLE*: **713619** (GB/NO), **713638** (D/F) | **713654** – 5 L CANISTER

11

GREASE classic

Kitchen Cleaner

Ready-to-use | All-purpose | Gentle to surfaces

Ready-to-use all-purpose cleaner for fast and effortless removal of all grease and grime in the kitchen.

713080 – 750 ml SPRAY BOTTLE

AT/020/012

9

GREASE superclean

Multi-purpose kitchen cleaner

Universal use | Easy to rinse off | Gentle to surfaces

Removes even stubborn grime of all types. Especially suitable for the removal of oily and greasy soiling. Separates quickly in oil water separators (Austrian norm 5105). Can be used in machines. Leaves behind no smeary residue. Gentle to surfaces; with a mild fragrance.

715932 – 5 L CANISTER*

13

GREASE superclean C

Concentrated multi-purpose kitchen cleaner

Universal use | Easy to rinse off | Gentle to surfaces

This highly-concentrated kitchen cleaner dissolves stubborn grease and grime of all types. Particularly suitable for the removal of oily and greasy residue. Can be used with machines. Leaves behind no smeary residue. Gentle to surfaces. Available in refillable dosing bottle.

712949 - 2 L DOSING BOTTLE | **712947** - 2 L POUCH

13

GREASE speed

Highly concentrated kitchen cleaner

No fragrance | Rapid cleaning | Easy usage

For use in all commercial kitchens and food processing operations. Even at low concentrations, powerfully removes oily and greasy grime. Can also be used in dipping baths or mechanically with high-pressure sprayers.

712697 – 1 L BOTTLE | **709686** – 10 L CANISTER

10

CREAM cleaner

Scouring Cream

Powerful cleaning | Material friendly | Surfactants made of up to 75% European rapeseed oil

Ecological scouring cream with lemon scent for a variety of surfaces, including those in sanitary areas. Powerful cleaning with optimized very fine marble dust. Quickly removes stubborn residues and hardened limescale deposits without scratching the surface.

715776 – 500 ml BOTTLE

DE/020/381

10

CREAM lemon

Scouring Cream

Powerful cleaning | Material friendly | Surfactants made of up to 75% European rapeseed oil

Ecological scouring cream with lemon scent for a variety of surfaces, including those in sanitary areas. Powerful cleaning with optimized very fine marble dust. Quickly removes stubborn residues and hardened limescale deposits without scratching the surface.

715798 – 500 ml BOTTLE

DE/020/381

INOXOL protect

Protection spray for stainless steel

2 in 1 | For metal surfaces | Anti-finger-print

Protection spray for stainless steel restores the shine to brushed stainless steel and removes the grime (water stains, fingerprints, dust) that tarnishes stainless steel. Its hydrophobic film repels water splashes.

714055 – 450 ml SPRAY BOTTLE

3

INOXOL clean

Stainless steel cleaner

Efficient cleaning | For glossy metal surfaces | Attractive shine

Removes limescale, crusted soiling, rust deposits, greasy and oily soiling. Economical use. Highly suitable for non-rusting steel and materials of nickel, brass and copper.

713130 – 1 L BOTTLE

INOXOL complete

Care product for stainless steel

Simple use | Care & cleaning | Less re-soiling

With a paraffin oil-based formula, INOXOL complete maintains, polishes and protects metal and eloxal surfaces in one process. Quickly and easily removes fingerprints, grime, discoloration and fogging and provides a smooth and shiny look. Special care components protect the metal surfaces long term from re-soiling. Extends the lifespan of the treated surfaces.

713792 – 750 ml SPRAY BOTTLE

GRILL express

Deep cleaner for grills and traditional ovens

Deep degreaser | Good adhesion | Works on its own

Quickly and completely eliminates greasy grime and burnt and baked-on foods. Fast and easy application with pump sprayer. Highly suitable for use on convection ovens, vents, grills and all stainless steel roasting and baking equipment.

712727 – 750 ml SPRAY BOTTLE* | 713329 – 5 L CANISTER

CALC off

Highly efficient descaler

With corrosion protection formula | Free from surfactants | Polyvalent

Effective descaler for fast and reliable removal of limescale deposits and professional cleaning. Free from surfactants with corrosion protection formula for value-preserving descaling. Suitable especially for kitchen appliances and utensils, coffee machines, beverage dispensers, dishwashers and washing machines.

717259 – 1 L BOTTLE

*ph-value at 1%

CALC free

Highly efficient descaler

High performing | Varied usage | Fast-acting

The low-foaming descaler developed for the kitchen effortlessly removes limescale deposits from dishes, utensils and surfaces in the dishwasher. Thanks to its outstanding performance, CALC free saves time and money. No corrosion with proper use. For all acid-resistant materials.

712688 – 1 L BOTTLE** | 713238 – 10 L CANISTER

NOWA

NOWA FLA 710 S

All purpose industrial cleaner

Versatile degreaser | Multi surfaces | For auto-scrubbers

A powerful and versatile degreaser which removes stubborn soiling such as oil, grease, fat, resin and coking. It prevents micro-particles to adhere on surfaces and quickly separates in oil separators, which makes it perfectly suitable for industrial use.

1505782 – 10 L CANISTER | 712888 – 15 L CANISTER | 712890 – 200 L BARREL

NOWA frigo

Ready-to-use cleaner for deep-freeze storage rooms

No de-icing | No stock removal | Up to -29°C

NOWA frigo is a cleaner for concentrated use during normal operations in refrigerated warehouses. The product de-ices and removes oily and greasy grime. Defrosting and re-cooling of refrigerated contents are not required. The time-consuming and expensive temporary storage of the frozen foods is thus avoided.

713887 – 10 L CANISTER

NOWA ISR 700

Chlorine based disinfectant industrial foaming cleaner

Outstanding performance | Thorough cleaning | Disinfecting

A chlorine based disinfecting foaming cleaner with bactericidal and yeasticidal activity according to EN 1276, EN 1650, and EN 13697. Owing to its high surfactant content combined with natron soda lye, NOWA ISR 700 is one of the strongest cleaning products available.

713323 – 20 L CANISTER | 713325 – 200 L BARREL

NOWA KRC 740

Liquid | Disinfecting | Chemo-thermal cleaner

Removes proteinaceous and greasy grime | Disinfects with chlorine For high and low pressure equipment

A liquid disinfecting kitchen cleaner with bactericidal and yeasticidal activity according to EN 1276, EN 1650, and EN 13697, dissolves stubborn grease and protein deposits. Good emulsification and dirt-absorbing power. Its highly active chlorine content allows a very good disinfection, low foam formation.

713322 – 10 L | 713316 – 20 L CANISTER | 1213318 – 200 L BARREL

NOWA MR 750

Chlorine free high alkaline cleaner

Surfactant-free | Suitable for CIP | All water types

With emulsifying power, effectively removes protein, grease and oil incrustations. Also suitable for cleaning deep fryers, band fryers, cutter machine, tanks and pipes even in hard water. It can be used as alkaline booster for automatic dishwashers.

712960 – 20 L CANISTER | **1112859** – 200 L BARREL

*pH value at 1%

NOWA SLR 600

Industrial acid foam cleaner

High performance | Persistent foam | Material-safe

A foam descaler for versatile application areas, e.g. removal of grease, water scale, lime soap, incrustated dirt, rust and other mineral soiling. Leave no corrosion damage on sound chrome-plated taps and fittings, keeping surfaces in their original condition.

712855 – 15 L CANISTER

NOWA SR 760

Industrial alkaline foam cleaner

Degreaser | Persistent foam | Chlorine-free

NOWA SR 760 is a powerful cleaner which removes grease and protein soiling in the food industry. Its stable and compact foam allows a good adhesion and therefore a higher efficiency, even on vertical surfaces due to longer and more effective exposure time. NOWA SR 760 allows to save costs and time thanks to its quick application.

712857 – 10 L CANISTER

*pH value at 1%

NOWA tanin

Fat and oil remover

Strong degreaser | Polyvalent | Perfume-free

Easily and quickly removes mineral, vegetable and animal oil and grease. A strong and versatile cleaner which removes even stubborn oil and grease residues, grime, tar, metal and rubber abrasion. Can be applied by different devices and machines because of its low foaming formula.

712884 – 5 L CANISTER | **403973** – 10 L CANISTER | **712887** – 200 L CANISTER

NOWA

Deep Cleaner, Grease and Oil Dissolver

TANEX industry

Industrial floor cleaner

Powerful | Safe use | Material friendly

Powerful cleaner removes stubborn stains, oil, grease and rubber abrasion marks. Even when the product is in use for a long time, no unpleasant smells develop. Slightly foamy, surfaces are not made slick. Safe and simple use. Reduced re-soiling. Material-friendly without use of aggressive chemicals. Gentle care of sensitive metal parts, varnish and plastic.

403366 – 10 L CANISTER

NOWA FLA 710 S

All purpose industrial cleaner

Versatile degreaser | Multi surfaces | For auto-scrubbers

A powerful and versatile degreaser which removes stubborn soiling such as oil, grease, fat, resin and coking. It prevents micro-particles to adhere on surfaces and quickly separates in oil separators, which makes it perfectly suitable for industrial use.

1505782 – 10 L CANISTER | **712888** – 15 L CANISTER | **712890** – 200 L BARREL

QUICKSTRIP alka

Extra strong stripper for alkaline-resistant floor

High-performance | Good degreasing ability | Pleasant smell

A particularly high performance deep cleaner with good stripping and degreasing abilities. With its low foaming formula and a pleasant fragrance it removes quickly old, multilevel wax layers, polymer films and stubborn dirt incrustations. For deep cleaning of all water and alkaline-resistant floorings.

404743 – 10 L CANISTER

NOWA tanin

Fat and oil remover

Strong degreaser | Polyvalent | Perfume-free

Easily and quickly removes mineral, vegetable and animal oil and grease. A strong and versatile cleaner which removes even stubborn oil and grease residues, grime, tar, metal and rubber abrasion. Can be applied by different devices and machines because of its low foaming formula.

712884 – 2 x 5 L CANISTER | **403973** – 10 L CANISTER | **712887** – 200 L CANISTER

NOWA MR 750

Chlorine free high alkaline cleaner

Surfactant-free | Suitable for CIP | All water types

With emulsifying power, effectively removes protein, grease and oil incrustations. Also suitable for cleaning deep fryers, band fryers, cutter machine, tanks and pipes even in hard water. It can be used as alkaline booster for automatic dishwashers.

712960 – 20 L CANISTER | **1112859** – 200 L BARREL

*pH value at 1%

NOWA SR 760

Industrial alkaline foam cleaner

Degreaser | Persistent foam | Chlorine-free

NOWA SR 760 is a powerful cleaner which removes grease and protein soiling in the food industry. Its stable and compact foam allows a good adhesion and therefore a higher efficiency, even on vertical surfaces due to longer and more effective exposure time. NOWA SR 760 allows to save costs and time thanks to its quick application.

712857 – 10 L CANISTER

*pH value at 1%

NOWA grease-ex

Industrial cleaner for food industry

Strong degreaser | Low-foaming | Odorless

Powerful degreaser which effectively dissolves oils and mineral, vegetable and animal grease. Suitable for cleaning floors and industrial equipment (not aluminum) in the cutting and meat processing, production halls, food industry and institutional kitchen. Low foaming, it is suggested for automatic machines as well as manual use.

712883 – 5 L CANISTER | **1109098** – 10 L CANISTER

Deep Cleaner, Grease and Oil Dissolver

NOWA neutral

Neutral cleaner for industrial application

No perfume | No colour | Versatile

NOWA neutral is a neutral pH maintenance cleaner that effectively removes oily and greasy grime. Because the product contains no dyes or fragrances, it is highly compatible with materials and skin. The versatile NOWA neutral can be used as a manual dishwashing detergent.

1306787 – 10 L CANISTER | **1403865** – 200 L BARREL

NOWA RHE 720

Liquid smoke stain remover

High-performance | Versatile | Compact foam

NOWA RHE 720 effortlessly removes stubborn grime such as tar and resin residue, grease and proteinaceous soiling. It is suited for use in high and low pressure devices. The compact foam adheres well to vertical surfaces too for longer and more effective contact time.

712861 – 10 L CANISTER | **712860** – 20 L CANISTER

Industrial acid foam cleaner

High performance | Persistent foam | Material-safe

A foam descaler for versatile application areas, e.g. removal of grease, water scale, lime soap, incrustated dirt, rust and other mineral soiling. Leave no corrosion damage on sound chrome-plated taps and fittings, keeping surfaces in their original condition.

712855 – 15 L CANISTER

Chlorinated Cleaners

NOWA ISR 700

Chlorine based disinfectant industrial foaming cleaner

Outstanding performance | Thorough cleaning | Disinfecting

A chlorine based disinfecting foaming cleaner with bactericidal and yeasticidal activity according to EN 1276, EN 1650, and EN 13697. Owing to its high surfactant content combined with natron soda lye, NOWA ISR 700 is one of the strongest cleaning products available.

713323 – 20 L CANISTER | 713325 – 200 L BARREL

NOWA KRC 740

Liquid | Disinfecting | Chemo-thermal cleaner

Removes proteinaceous and greasy grime | Disinfects with chlorine For high and low pressure equipment

A liquid disinfecting kitchen cleaner with bactericidal and yeasticidal activity according to EN 1276, EN 1650, and EN 13697, dissolves stubborn grease and protein deposits. Good emulsification and dirt-absorbing power. Its highly active chlorine content allows a very good disinfection, low foam formation.

713322 – 10 L | 713316 – 20 L CANISTER | 1213318 – 200 L BARREL

Metal and Equipment Cleaner

NOWA clean

Industrial cleaner for metal processing industry

Industrial degreaser | Low COD | Manual/mechanical cleaning

Penetrates and emulsifies soiling extremely quickly from metal surfaces and saves costs because of its versatile application properties and removes different types of soiling (metal dust, incrustated oily and greasy soiling and other). NOWA clean has an extremely low COD-value (Chemical Oxygen Demand), which allows it to reduce organic pollution and to facilitate waste water treatment.

712856 – 15 L CANISTER | 1108473 – 200 L BARREL

NOWA gromar

Separating industrial cold cleaner

Separates quickly | Gentle to material | For automotive industry

Self-separating industrial cold cleaner with versatile application areas which effortlessly removes oils, grease, rubber abrasion, grime and other typical soiling for industrial areas. With its special rust preventing components it protects materials, keeps surface's original look and allows materials' longer life span. It does not damage of sensitive metal parts, varnish or plastics thanks to the use of nonaggressive chemicals.

1404727 – 10 L CANISTER

Special Products

NOWA frigo

Ready-to-use cleaner for deep-freeze storage rooms

No de-icing | No stock removal | Up to -29°C

NOWA frigo is a cleaner for concentrated use during normal operations in refrigerated warehouses. The product de-ices and removes oily and greasy grime. Defrosting and re-cooling of refrigerated contents are not required. The time-consuming and expensive temporary storage of the frozen foods is thus avoided.

713887 – 10 L CANISTER

FOAM-EX

Defoamer

For dirty water tanks | Anti-foaming | Varied uses

Prevents foam formation or destroys existing foam in the dirty water tank of extraction devices, water vacuums, floor scrubbers. Extremely economical use. Can be used to eliminate foam formation in the washing machine

713891 – 5 L CANISTER

PRORAX

High performance drain cleaner

Powerful | Removes bad odors | Prevents blockages

PRORAX powerfully removes stubborn clogs in all conventional drains, e.g., in kitchens or sanitary areas. With its high performance formula, PRORAX works quickly and dissolves even greasy clogs and hair within only five minutes. Simple to use, thanks to the dosage marking on the side of the bottle.

715500 – 1 L BOTTLE

*pH value at 1%

BIOBACT clean

Biotechnological all-purpose cleaner

Cleaning efficiency | Long-lasting cleanliness | Material friendly

Biotechnological cleaner for all waterproof surfaces. Long-lasting elimination of offensive odors; leaves behind a pleasant scent. Regular use prevents new formation of organic contaminants. BIOBACT clean helps to reduce offensive smells in industrial operations, especially in areas who watery solutions are disposed of via the wastewater system.

716817 – 1 L BOTTLE

Laundry Detergents & Stain Removers

Liquid Laundry Detergent

ACTIV delicat

Liquid detergent for delicate textiles

Gentle to fabrics | Protects fibers

Gentle liquid detergent based on almond oil for delicate fabrics, such as wool, viscose, acetate, elastic and synthetic textiles. Contains no bleaching agents or optical brighteners, making it ideal for hand washables. Can be used for colored laundry at temperatures between 20 and 60°C.

717222 – 5 L CANISTER* | 415464 – 15 L CANISTER

ACTIV liquid

Liquid detergent

High performance | Long lasting perfume | High material compatibility

ACTIV liquid is a concentrated heavy duty liquid laundry detergent. Harmless to health of fabric wearers and cleaning personnel. Because it is free of bleaching agents, it can be used for white and colored laundry. ACTIV liquid works well starting at 30°C.

716673 – 5 L BOTTLE* | 712822 – 15 L CANISTER | 713800 – 60 L BARREL | 714633 – 200 L BARREL

ACTIV perfect KLIKS

Ultra-concentrated liquid detergent

Powerful cleaning at low temperatures | Material friendly | Economical

ACTIV perfect Kliks contains no bleaching agents. It is material friendly and compatible with all types of fabrics. Excellent washing performance at temperatures of 30°C and higher. The anti-graying system permits versatile use for all types of water and water hardness and from slightly to heavily soiled laundry. For use in Kliks-System.

714347 – 10 L BAG IN BOX

ACTIV fresh

Concentrated heavy duty detergent

Enzymatic | Fresh fragrance | All water types

Top cleaning performance in all water hardness levels. The combination of chelating agents and soap guarantees good descaling. Prevents graying too. Gives the laundry a pleasantly fresh citrus scent. Dosing with an automatic dosing system.

713072 – 15 L CANISTER

Powders and Tablets

ACTIV tabs

High performance, ecological laundry tabs

Easy dosing | Long lasting freshness | For all fabrics

ACTIV tabs, which are made from carefully selected raw materials, are ideal for sensitive skin. They achieve excellent cleaning results and offer top washing performance for all white and colored fabrics. Sustainable ACTIV tabs contain renewable raw materials and fulfill Ecolabel criteria.

715163 – 56 TABS
*pH value at 10 g/L

DK/006/001

ACTIV bicompact

Ultra Concentrated Laundry Detergent

High performance | Long-lasting scent | Highly concentrated

Especially economical compact laundry detergent with fivefold bio-enzyme system and oxygen-based bleach. High-performance washing power at low temperatures and low doses. Saves 60% of energy costs and time with shorter wash cycles.

716249 – 10 kg BAG | **716500** – 10 kg BOX*
*pH value at 5 g/L

NL/006/009

ACTIV performa

High bleaching and degreasing washing powder

Enzyme-based | Stain remover

With a high proportion of bleaching agents, ACTIV performa removes all types of stains (wine, tea, coffee, lipstick, etc.) and guarantees radiant white laundry. Even removes hardened food residue such as grease and egg and achieves optimum washing results at all water temperatures.

716052 – 15 kg SACK
*pH value at 10 g/L

NL/006/009

ACTIV intense

Complete washing powder – long lasting perfume

All-purpose use | Fresh scent | Radiant white laundry, at 30°C

ACTIV intense works efficiently at temperatures starting at 30°C. With an enzyme-based formula, ACTIV intense delivers bright white laundry and removes all kinds of stains. The fresh scent lingers on the clean laundry.

716051 – 15 kg SACK
*pH value at 10 g/L

NL/006/009

ACTIV color

Complete powder for coloured textiles

Enzyme-based | No color fading

ACTIV color contains neither bleaching agents nor optical brighteners, so it protects colored laundry from fading. The formula's enzymes and emulsifying action make ACTIV color suitable for pre-washing. ACTIV color is effective at all water temperatures.

716050 – 10 kg SACK

*pH value at 10 g/L

NL/006/009

ACTIV universal

Complete powder for all textiles

Stain remover | Versatile | All temperatures

ACTIV universal washes effectively with help from its bleach components at all temperatures and removes all types of stains. ACTIV universal is economical.

716266 – 20 kg SACK

*pH value at 10 g/L

APESIN activdes hygiene

Disinfecting washing powder

RKI-listed | VAH-listed | Disinfects at 60°C

APESIN activdes hygiene cleans, bleaches and disinfects in one wash cycle. Protein and starch stains are removed and unpleasant odors effectively eliminated. Listed by VAH (Association of Applied Hygiene) and RKI (Robert Koch Institute) and satisfies effectiveness criteria according to EN 13727, EN 16616 and EN 14476. Use biocidal products with caution. Always read the label and product information before use.

715040 – 15 kg SACK

*pH value at 10 g/l

Stain Removers

SOLUS multi

Pre-wash spotter for protein and greasy stains

Easy-to-use | For all fabrics | Efficient stain remover without bleaching agents

SOLUS multi effortlessly removes greasy, proteinaceous soiling. Without bleaching additives or optical brighteners. The product is therefore suitable for all fabrics, including delicate washables and colored laundry. The formula is based on renewable raw materials.

713068 – 750 ml SPRAY BOTTLE

DE/006/037

SOLUS oxydet

Colored stains remover without chlorine

Without chlorine bleach | Removes colored stains | Easy application

With a special combination of active ingredients, SOLUS oxydet effectively removes colored stains. SOLUS oxydet contains neither chlorine bleach nor optical brighteners and therefore can be used on delicate or colored fabrics.

715970 – 750 ml SPRAY BOTTLE

AT/039/003

Laundry Additives

Detergent Booster

SYSTEM alca

Alkaline liquid booster

Pure power | Automatic dosing | Renewable ingredients

SYSTEM alca can be used as a pure alkaline detergent or in the system as a washing power booster. Removes stubborn stains and offers a good bond to greasy residue. It contains an innovative system of chelating agents based on renewable resources. Excludes the use of eco-toxic ingredients such as NTA, EDTA and phosphates.

712826 – 15 L CANISTER | **714630** – 200 L BARREL

*pH value at 1%

DE/039/007

SYSTEM power KLIKS

Ultra-concentrated alkaline liquid booster

Ultra concentrated | Highest degreasing power | Water softening ability

ACTIV power Klinks contains no bleaching agents. It is material friendly and compatible with all types of fabrics. Excellent washing performance at temperatures of 30°C and higher. The anti-graying system permits versatile use for all types of water and water hardness and from slightly to heavily soiled laundry. For use in Klinks-System.

714348 – 10 L BAG IN BOX

*pH value at 1%

AT/039/003

SYSTEM surf

Degreaser and wetting agent

Ultra concentrated | Synthetic fibers | No optical brighteners

SYSTEM surf is rich in surfactants, making it especially suitable for washing synthetic fibers. SYSTEM surf efficiently removes greasy stains.

713260 – 5 L CANISTER

SYSTEM tensio

Tensioactive detergent

All textiles | All temperatures

SYSTEM tensio is a detergent with strong tensio-active emulsifying agents that remove grease and grime from all fabrics. SYSTEM tensio is recommended for use with SYSTEM alca for best results.

713279 – 20 L CANISTER

SYSTEM tensioplus

Tensio-active liquid agent

Against grease and oil soiling of textiles | Highly concentrated

With its special surfactants especially for cleaning textiles soiled with grease and oil. Effective and powerful for cleaning workwear in kitchen, food processing industry and workshops. Also for cleaning textiles such as mops and cleaning rags. Can be used as a sole detergent for low water hardness.

716840 – 15 L CANISTER | **716841** – 60 L BARREL

Bleaching Additives

SYSTEM white KLIKS

Ultra-concentrated laundry bleaching additive

Efficient at low temperatures | Powerful stain remover | Saves energy, reduces waste

SYSTEM white Kliks achieves bright white cleaning results. Easily removes all bleachable stains such as wine, coffee or tea. Suitable for use at low temperatures, making it perfect for fabrics that should be washed only at 30°C. For use in Kliks-System.

714349 – 10 L BAG IN BOX

SYSTEM oxybleach

Bleaching additive for laundry

Stain remover | Radiantwhite results | Works at low temperatures

Bleach additive based on peracetic acid with outstanding bleaching effects, starting at 30°C. For use with a detergent (e.g., ACTIV liquid) via an automatic dosing system in the washing machine. Highly-effective on all colors and bleachable stains.

714777 – 20 L CANISTER | **715262** – 20 L CANISTER EAST

Disinfecting Bleaching Additive

APESIN oxydes

Laundry disinfecting and bleaching additive

Stain remover | Outstanding bleaching results | Works at low temperatures

For removal of all types of bleachable stains. To be used for chemical-thermal disinfection of fabrics in APESIN system 40 with ACTIV liquid and SYSTEM alca. APESIN system is listed by the Robert Koch Institute (RKI) and Association for Applied Hygiene (VAH) for use at 60°C. APESIN system 40 is listed by VAH for 40°C. Use biocidal products with caution. Always read the label and product information before use.

APESIN food

Liquid, fast-acting kitchen disinfectant

2-in-1 disinfecting and cleaning | High performance | Tested and registered

APESIN food is the ideal solution for cleaning and disinfection in one step allowing a fast and secure reuse of food processing and institutional areas. It is based on a special acidic combination which allows an effective removal of stubborn greasy, protein and dirt deposits as well as microbial soiling. Easy and effortless removal of scale, lime, lime soap deposits, and deposits in dairies, bakeries, breweries, wineries and any other food processing residues. The spectrum of activity of APESIN food has been tested and proved according to the European EN standards. APESIN food allows fast, secure results with maximum discretion leaving no residues.

714912 – 1 L BOTTLE | 714915 – 5 L CANISTER

APESIN kitchen QUICK&EASY

Foaming disinfectant kitchen cleaner

Hygienic | Safe | Highly efficient

Kitchen disinfectant cleaner with broad usage spectrum against bacteria and yeast in food preparation areas in commercial kitchens, cafeterias, restaurants and the food processing industry. Contains no dyes or fragrances. Safe and effective use with the Quick&Easy system. Use biocidal products with caution. Always read the label and product information before use.

APESIN AP 100 oxy

Powder concentrate for surface disinfection

Listed VAH/RKI (A/B) | Broad efficacy spectrum | Material compatibility

APESIN AP 100 oxy is a highly effective powder concentrate that offers an excellent spectrum of activity for disinfecting and cleaning all types of surfaces in healthcare facilities, in industrial & institutional areas and in food areas. The product is on the RKI AB list and is suitable both for surface wipe disinfection where there are increased efficacy requirements in routine use and for disinfection in the event of an epidemic. Due to the active ingredient peracetic acid generated in the mildly alkaline application solution, the product offers a comprehensive spectrum of activity, excellent material compatibility (even suitable for disinfecting sensitive materials such as Plexiglas®) and good cleaning performance. The efficacy of APESIN AP 100 oxy is guaranteed even with high organic loads and dried blood loads can be removed effortlessly and safely. APESIN AP 100 oxy is fragrance-free and low-odor and is suitable for all areas where maximum efficacy, exceptional user safety and good cleaning performance are required. Use biocidal products with caution. Always read the label and product information before use.
