

Compact. Economical. Green.

Green laundry hygiene - dermatologically tested.

Less powder. More Performance. Completely green.

ACTIV intense, ACTIV performa and ACTIV color now under Green Care Professional

- Improved formulation
- EU-Ecolabel
- Concentrated powder with higher performance, which reduces dosage and thus minimizes costs
- Favorable costs per use
- Smaller, user-friendly package size
- Biodegradable ingredients
- Free from microplastics, complexing agents (such as EDTA, NTA, phosphates) and chlorine based compounds

Our powders are concentrated: in dosage, performance and sustainability.

Proven skin-compatible

All Green Care Professional laundry detergents and softeners have been awarded the Dermatest® seal.

They are thus dermatologically tested in accordance with the instructions for use and have been proven to be skin-compatible when the concentrations for use are observed.
