# THE SOUND OF CONFIDENCE

## Compact detergent systems

**KLIKS combines high cleaning efficiency with environmental responsibility!**

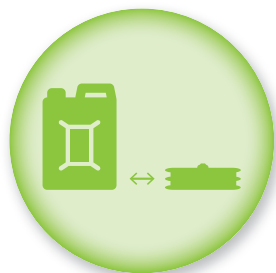

- Closed dosing system
- Compact: reduces plastic waste, 100% safe and high performing
- Off-floor installation, flexible and adaptable
- Wide range of detergents to meet all your cleaning and hygiene needs

### 100% Biodegradable formulations

Most of the common detergents with a high cleaning performance contain critical substances that harm people and environment. KLIKS is different:

- 100% biodegradable formulas
- No toxic substances or microplastics
- All ingredients are safe for people & environment
- Organic raw materials
- Certified in accordance with highest standards (EU Ecolabel & Cradle to Cradle)

### Waste reduction

The formulas come in a packaging that enables the complete emptying of the product, as well as a very space-saving disposal:

- Saves waste volume
- Reduces packaging weight
- Increases well-being for staff at work

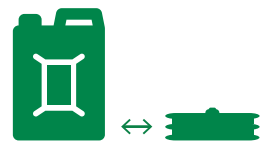

**KlikS** floor and surface maintenance cleaning in 2L pouch

**ULTRA-CONCENTRATED**

UP TO **500** SPRAY BOTTLES

**UP TO 90% LESS PLASTIC WASTE**

# KLIKS

## Intuitive & safe handling

KLIKS is a closed dosing system which provides an integrated user safety – Just one “klik” to put the system into service

- Connector enables quick, intuitive and safe product exchange
- No contact with the pure product
- No risk of leakage or spillage
- Water-repellent cardboard (Bag-in-Box)
- Colour coding: no confusion of products
- Non-toxic ingredients

INTUITIVE  
& SAFE  
HANDLING

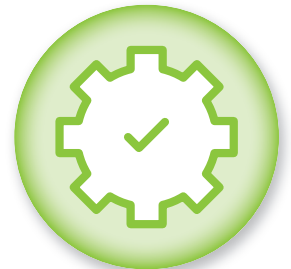

CONTROLLED  
DOSING  
& EFFICIENCY

## Controlled dosing & efficiency

In the cleaning & hygiene sector, it is inevitable to use highly efficient detergents that produce quick and qualitative results. The right dosage is indispensable to avoid an uneconomical consumption.

KLIKS provides:

- A precise and efficient dosing  
– no risk of under-/overdosing
- A compact efficiency
- High-concentrated and intelligent formulas

ks

PROFITABILITY

## Profitability

Cost efficiency is one of the most relevant requirements in the facility sector. With KLIKS:

- You are able to dose the detergents in a very cost efficient way
- You save disposal costs thanks to the space-saving packaging

# BUILDING CARE

FOR SANITARY, FLOOR AND SURFACE MAINTENANCE CLEANING

## SANET intenseKliks

High-concentrated sanitary cleaner and descaler

- Highly performing maintenance cleaner and descaler with exceptional environmental properties
- Thanks to the special developed formulation best cleaning results can be achieved at the first application by minimizing cleaning time and costs
- Suitable for the use on all acid-resistant surfaces in the sanitary area

## TANET dayKliks

High-concentrated floor and surface cleaner

- Maintenance cleaner with high wetting properties and perfect cleaning results for floors, surfaces, and glass
- Ensures easy and efficient removal of dirt and grease from different kind of floorings with long-lasting results and leaves refreshing scent of grapefruit
- Suitable for water-resistant floors (e.g. stone, rubber, linoleum, PVC, PUR), and washable surfaces (e.g. plastics, glass, ceramic, metal, and varnish)

DISINFECTION

## APESIN combi DR Kliks

All-purpose liquid disinfecting cleaner

- Can be used for simultaneous disinfection and cleaning of all washable surfaces in kitchen and food processing areas of industrial, medical and institutional spaces
- Reliably removes all kinds of greasy dirt and residues with a high load of proteins thanks to its alkaline quaternary amine composition
- Suitable for use at low temperatures

## APESIN san Kliks

Liquid disinfecting cleaner for bath and sanitary areas

- Best adapted for both cleaning and disinfecting in bath and sanitary areas of industrial, medical, and institutional areas, e.g. public facilities, offices, gyms, in one step
- Ensures outstanding cleaning efficiency by dissolving quickly and easily mineral soiling (e.g. scale, lime soap, rust) as well as organic soiling (e.g. grease, protein deposits)
- Can be used on ABS, PC plastics, and acrylic glass as well as on chrome tapware, and high-grade brass

**Use biocides safely. Always read the label and product information before use.**

# KITCHEN HYGIENE

## WAREWASHING AND CLEANING

### MANUDISH evoKliks

High-concentrated manual dishwashing liquid

- The carefully selected plant based surfactants preserve the lifespan of materials, making it suitable for the manual cleaning of all kitchen utensils while enhancing highest environmental respect in accordance to Cradle-to-Cradle
- The powerful composition provides excellent degreasing properties allowing even quick soaking of incrustated and burned fat residues
- Ensures an effortless and time-saving dishwashing process

### GREASE quickKliks

High-concentrated kitchen cleaner

- Maintenance kitchen cleaner for universal use with high degreasing properties
- Provides perfect cleaning results for all waterproof floors, surfaces and furnishings in food processing areas thanks to its special selection of surfactants and its alkaline composition
- Dissolves all kinds of stubborn dirt ensuring uniform results and high material friendliness while enhancing highest environmental standards in accordance to Cradle-to-Cradle without compromising the efficiency

### GREASE starKliks

High-concentrated kitchen degreaser

- Degreases easily various alkaline resistant surfaces within the kitchen and food processing areas
- Achieves very good results when used on stubborn incrustations particularly for stove and grill areas thanks to its powerful alkaline composition
- Selected natural ingredients ensure highest environmental compatibility and provide versatility for the manual and mechanical application (e.g. with sprayer or foam pistols)

## DISINFECTION

### APESIN food Kliks

Liquid disinfecting cleaner for kitchen and food processing areas

- High performance disinfecting cleaner for all kitchens, canteens, restaurants and food processing industry
- Allows an effective removal of all kinds of stubborn mineral soiling (e.g. scale, lime soap, rust) and organic soiling (e.g. grease, protein deposits) thanks to its lactic acid composition
- Suitable for all acid resistant surfaces and equipment made of stainless steel, plastic, ceramic, porcelain, varnished wood or metal

### APESIN combi DR Kliks

All-purpose liquid disinfecting cleaner

- Can be used for simultaneous disinfection and cleaning of all washable surfaces in kitchen and food processing areas of industrial, medical and institutional spaces
- Reliably removes all kinds of greasy dirt and residues with a high load of proteins thanks to its alkaline quaternary amine composition
- Suitable for use at low temperatures

**Use biocides safely. Always read the label and product information before use.**

# COMFORTABLE CONFIGURATION

**Kliks** can be configured in a convenient and user-defined way, depending on your preferences and installation options. The system is compatible with various types of dosing devices.
