**-90%**

**LET'S COMMIT TO REDUCING OUR PLASTIC CONSUMPTION AND PROTECTING OUR OCEANS!**

# THE SOUND OF CONFIDENCE

## **100% Biodegradable formulations**

Most of the common detergents with a high cleaning performance contain critical substances that harm people and environment. KLIKS is different:

- 100% biodegradable formulas
- No toxic substances or microplastics
- All ingredients are safe for people & environment
- Organic raw materials
- Certified in accordance with highest standards (EU Ecolabel & Cradle to Cradle)

## **Intuitive & safe handling**

KLIKS is a closed dosing system which provides an integrated user safety – Just one “klik” to put the system into service

- Connector enables quick, intuitive and safe product exchange
- No contact with the pure product
- No risk of leakage or spillage
- Off-floor installation, flexible and adaptable
- Water-repellent cardboard (Bag-in-Box)
- Colour coding: no confusion of products
- Non-toxic ingredients

## **Controlled dosing & efficiency**

In the cleaning & hygiene sector, it is inevitable to use highly efficient detergents that produce quick and qualitative results. The right dosage is indispensable to avoid an uneconomical consumption. KLIKS provides:

- A precise and efficient dosing – no risk of under-/overdosing
- A compact efficiency
- High-concentrated and intelligent formulas

# Kliks

## Profitability

Cost efficiency is one of the most relevant requirements in the facility sector. With KLIKS:

- You are able to dose the detergents in a very cost efficient way
- You save disposal costs thanks to the space-saving packaging

## Waste reduction

The formulas come in a packaging that enables the complete emptying of the product, as well as a very space-saving disposal:

- Saves waste volume
- Reduces packaging weight
- Increases well-being for staff at work

Space-saving disposal!

## Connection

Our remote dosing system enables an automatic and connected dosing:

- Stable and precise dosing
- Integrated alarm system
- Remote service – fast and reactive
- Allows monitoring and management of your consumption in real time
- Monitor your product stocks and get a notification when your filling is on low level
